i Get in-depth checkups and exams

HealthCheck covers well-child checks—medical visits that members under 21 go to when they are not sick. Their doctor asks questions and examines them to make sure they're healthy and taking the right steps to stay that way. These visits include:

- Dental checks
- Growth and development checks
- Head-to-toe physical exams
- Hearing and vision checks
- Immunizations
- Lab tests
- Nutrition checks

HealthCheck also covers any follow-up visits or special appointments.

i Get other services and items

HealthCheck Other Services covers other benefits that Medicaid typically doesn't cover, like:

- Behavioral and mental health treatment
- Durable medical equipment
- Disposable medical supplies
- Orthodontia
- Over-the-counter items
- Personal care services

Do you have to pay to use HealthCheck?

Well-child checks, follow-up visits, and special appointments are covered with your child's ForwardHealth card.

Do you need rides to and from appointments or pharmacies?

Members can use our non-emergency medical transportation services to get a ride, bus tickets, or money for gas. Call **866-907-1493** to schedule a ride or get more information.

Do you need help setting up a visit?

Call your child's doctor's office and ask for a well-child check.

Don't have a provider yet? Contact your BadgerCare Plus HMO to find a provider in their network. If you don't have an HMO, call Member Services at **800-362-3002**.

Other questions about HealthCheck?

Go to dhs.wi.gov/healthcheck-member-faqs.htm.

How to be a partner in your child's care:

- Ask their doctor's office how often they should get a well-child check. It's based on age.
- Schedule well-child checks with their doctor's office. Let them know you're using the HealthCheck benefit.
- If their doctor's office is not familiar with HealthCheck, let them know to call the Provider Services at **800-947-9627**.
- Go to all exams.
- Talk about health concerns.
- Go to any follow-up visits or special appointments.
- Ask questions about anything that isn't clear.
