# 1 Introduction

Users are required to verify dates of enrollment and other coverage information to determine whether a member is enrolled in a ForwardHealth program.

Portal enrollment verification allows users to request enrollment information for past dates of service (DOS) and future DOS. Since a member's enrollment may change monthly, enrollment information for future dates should always be verified again when the service(s) will actually be rendered.

The secure area of the ForwardHealth Portal offers real-time member enrollment verification for all ForwardHealth programs. Portal users will be able to use enrollment verification to determine the following:

- The benefit plan(s) or program(s) in which the member is enrolled
- If the member is enrolled in a state-contracted managed care organization (Medicaid and BadgerCare Plus members)
- If the member has any other coverage, such as Medicare or commercial health insurance
- If the member is exempted from copays (Medicaid and BadgerCare Plus members only)
- If a member was previously enrolled in a plan on specific days of service
- If a member is enrolled in the Pharmacy Services Lock-In Program and the member's Lock-In pharmacy, primary care provider, and referral providers (if applicable)

The ForwardHealth Portal is available 24 hours a day, seven days a week.

# 2 Verify a Member’s Enrollment

Users can only view enrollment information for the financial payer under which they are logged in or for which they have permission. For example, if a user is logged in as a Wisconsin Well Woman (WWWP) or an AIDS Drug Assistance Program provider and tries to check Medicaid enrollment, a “No rows found” message will be returned. The user would need to be logged in as a Medicaid or BadgerCare Plus financial payer in order to check Medicaid enrollment.

1. Access the ForwardHealth Portal at [www.forwardhealth.wi.gov/](http://www.forwardhealth.wi.gov/).

- All users must enter one of the following:
  - The Member ID. The Member ID will return the most accurate result. When using the Member ID as a search query, it is best to not enter any other search information. The Member ID will override any other search criteria entered in the search fields, such as the member's name or Social Security number (SSN). If any information entered in the search panel is inconsistent with the information for the Member ID, only the information related to the Member ID will be returned.

If the member's ID is not available, the following combinations can be used:

- The member's last name, first name, and date of birth.
- The member's SSN and date of birth. Some members' SSNs may not be recorded in the ForwardHealth system. If a search by SSN yields a "No rows found" result, clear the information in the SSN field and enter information in a different field.

Users should verify the member's information after the search results are returned.

- Enter the From Date of Service and To Date of Service (required). The dates will default to the current date if nothing is entered. Otherwise, enter the dates of the member's enrollment if different from the current date.
  - Users can enter any time in the past for which records are kept. However, no single enrollment request can cover a period of greater than one year. For example, users may check for enrollment for January 1, 2013, through December 31, 2013, or June 15, 2013, through June 14, 2014.

- If the inquiry is made **prior to** the 20th of the current month, users may enter a "From" DOS and "To" DOS up to the end of the current calendar month. For example, if the date of the request was November 15, 2013, users could request dates up to and including November 30, 2013.
- If the inquiry is made **on and after** the 20th of the current month, users may enter a "From" DOS and "To" DOS up to the end of the following calendar month. For example, if the date of the request was November 25, 2013, users could request dates up to and including December 31, 2013.

If any of these requirements are not met, an error message will be displayed at the top of the page.

10. Click **Search**. One of the following will be displayed:

- If the member has coverage for the DOS indicated, the enrollment verification tracking number and the “Search Results” section will be displayed.

For each inquiry, a unique enrollment verification tracking number will be displayed above the “Search Results” section. This number should be retained for tracking and research purposes. The enrollment verification tracking number confirms an inquiry was made regarding the member's enrollment.

For information about searching for enrollment verification inquiries, refer to [Section 3 Search Enrollment Verification History](#).

Users are advised to print the Enrollment Verification page using the Print function of their browser so that they have a permanent paper copy of the enrollment verification inquiry for their records.

Note: While users are able to search enrollment verification history later using the tracking number, the results are not as comprehensive as the results of the initial inquiry.

- If the member has no coverage for the DOS indicated, an enrollment verification tracking number will be displayed above the “Search Results” section, and a “No rows found” message will be displayed in the Benefit Plan panel.

The screenshot shows a web interface titled "Search Enrollment Verification History". At the top, a yellow banner contains the text: "For your reference, the enrollment verification tracking number 182540000J verifies the enrollment information below only for the following time frame of 09/11/2017 through 09/11/2017." Below this is a "Search Results" section. Below the "Benefit Plan" section, a grey box displays the message: "\*\*\* No rows found \*\*\*".

Figure 9 Error Message

- If the member is deceased and a DOS is entered that is **later** than the date of death, an enrollment verification tracking number will be displayed above the “Search Results” section, and a message indicating the member’s date of death will be displayed at the top of the Enrollment Verification page.

The screenshot displays the 'Enrollment Verification' interface. At the top, a black banner reads 'The following messages were generated:'. Below this, a red-bordered box contains the message: 'Date of death [12/31/2009] can not be before dates of service.' A red arrow points from this message to the 'Date of Birth' field in the search criteria. The search criteria section includes fields for Member ID (100000000x), Last Name, First Name, Social Security Number, and Date of Birth. Below these are two date fields: 'From Date of Service\*' (09/13/2018) and 'To Date of Service\*' (09/13/2018), both highlighted with red boxes. A 'Search' button is located to the right. A yellow box at the bottom provides a reference: 'For your reference, the enrollment verification tracking number 182560000F verifies the enrollment information below only for the following time frame of 09/13/2018 through 09/13/2018.'

## 2.2 Enrollment Verification Search Results Panels

The Benefit Plan panel will always display when a user searches for a valid member enrolled in a ForwardHealth program for valid DOS. In addition to the Benefit Plan panel, several other panels may also be displayed. For example, a member may be enrolled in Medicaid for the DOS entered and may also be enrolled in a managed care organization or may have other insurance. In determining a member’s enrollment, users must consider all the information displayed.

## 2.2.1 Benefit Plan Panel

The Benefit Plan panel shows the financial payer under which the benefit plan is covered, the specific benefit plan in which the member is enrolled, the effective date, and the end date of enrollment (for the DOS entered).

If the member is not required to pay copays or has met the copay limit for the month, “No Copay” will be displayed next to the benefit plan. “No Copay” will be removed at the beginning of the following month for members required to pay a monthly copayment. If “No Copay” is **not** displayed, the member **must** pay a copay for services that require a copay.

If the member is eligible for the \$8 non-emergent copay, “Eligible for Non-emergent Copay” will be displayed next to the benefit plan. This message indicates that a member is a BadgerCare Plus childless adult and they are eligible for the copay if they do not meet the prudent layperson standard and seek and receive additional post-stabilization care in the emergency department after being informed of the \$8 copay and availability of alternative providers with lesser or no cost share.

# 3 Search Enrollment Verification History

Users may search for their previous enrollment verification inquiries using the Search Enrollment Verification History link on the Enrollment Verification page.

Note: Users must be logged in under the same Portal account used for the original enrollment verification inquiry. Only requests originally made by the requesting service location will be returned. For example, if Clinic 1 made the original request and the user is logged in as Clinic 2, the request being searched for, although for the same provider, will not be returned because the request was made under a different location.

1. On the Enrollment Verification page, click **Search Enrollment Verification History**.

The screenshot shows the 'Enrollment Verification' page. At the top, it says 'Required fields are indicated with an asterisk (\*)'. Below this, there is a link to 'View the Enrollment Verification User Guide' and a list of required fields: Member ID, Social Security Number and Date of Birth, and Member First/Last Name and Date of Birth. The form contains input fields for Member ID, Last Name, First Name, Social Security Number, Date of Birth, From Date of Service\* (03/13/2012), and To Date of Service\* (03/13/2012). ### 4.1 Benefit Plans

Members may be enrolled concurrently in multiple benefit plans. For example, a member enrolled in Wisconsin Medicaid may also be enrolled in Qualified Medicare Beneficiary Only, which is a limited benefit plan. A limited benefit plan does not restrict or limit the number of ForwardHealth programs in which a member may wish to enroll. Both benefit plans for that member will be displayed on the ForwardHealth Portal or spoken through WiCall.
