This facility failed to return the staffing survey required under Wisconsin Statutes 50.096(2), which authorizes the Department of Health Services to collect information needed to prepare the annual Consumer Information Report. As a result staff to resident ratios and staff turnover and retention rates could not be calculated for this facility.

Staff: Residents

Nursing Home Staff	Staff:Residents, by shift, in a two-week time period (Average number of residents)		
	Day Shift	Evening Shift	Night Shift
Nurses (RNs & LPNs)	NA	NA	NA
Nurse Aides	NA	NA	NA

If the number of residents is a "" in one of the categories above, there was an average of <1 nurse or NA on the shift. There may have been a combination of part-time RNs, LPNs or NAs on the shift on one or more days during the two-week time period, which could make the average <1. Per Wisconsin Administrative Code, Chapter HFS 132, there must be at least one RN or LPN on duty at all times.

Staff Retention Rates

Nursing Home Staff	Staff Retention Rates (Percent of staff employed for at least one year)		
	This Home (NS=no staff)	GRANT County Average (8 homes reporting)	State of Wisconsin Average (364 homes reporting)
Full-time Nurses (RNs)	NA	78%	71%
Part-time Nurses (RNs)	NA	72%	70%
Full-time Nurses (LPNs)	NA	89%	75%
Part-time Nurses (LPNs)	NA	66%	65%
Full-time Nurse Aides	NA	77%	69%
Part-time Nurse Aides	NA	72%	59%

Appendix C - **statewide averages.**

SECTION 1 - SURVEY RESULTS FOR THIS FACILITY

Nursing homes in Wisconsin operate under rules enacted by the Federal government (for the Medicare and/or Medicaid programs) and by the State of Wisconsin. Surveyors from the Wisconsin Division of Quality Assurance conduct unannounced inspections at each nursing home at least once every 9 to 15 months to determine if the nursing home complies with all State and Federal rules. State surveyors also conduct follow-up visits to ensure that violations have been corrected, investigate complaints, and conduct other surveys as necessary.

When state surveyors determine that a nursing home is not in compliance with a Federal regulation, the nursing home is cited with a violation or "deficiency". The number and type of violations for surveys conducted in 2018 are described in this report. The number of federal regulation deficiencies cited in Wisconsin nursing homes during 2018 surveys ranged from **0 to 72, with an average of 6.5 citations.**

In 2018 survey(s), DIVINE REHABILITATION AND NURSING AT FENNIMORE, FENNIMORE, which has 62 licensed beds, was cited with:

NS Federal regulation deficiency(ies)

Statewide, the average number of deficiencies for a nursing home with

In addition, this home was cited with **NS** federal building safety violations. The number of federal building safety violations statewide in 2018 ranged from **0 to 25, with an average of 3.9 citations.**

Finally, when there is no comparable requirement under federal regulations, nursing facilities may be cited for deficient practices under state regulations. The number of state regulation deficiencies cited in Wisconsin nursing homes during 2018 surveys ranged from **0 to 1, with an average of 0.01 citations.** This home was cited with **NS** state regulation deficiency(ies).

Federal Regulation Deficiencies:

To determine Federal regulation deficiencies, surveyors use a resident-centered, outcome-based process. Equal emphasis is placed on the quality of care the resident receives and on the quality of the resident's life in the nursing home, and on whether or not the resident's rights, dignity and privacy are respected. These factors are evaluated by observing residents' care; interviewing residents, families and staff; and reviewing medical records.

If it is determined that a Federal regulation deficiency exists, the deficiency is placed on a grid. Grid placement is based on two measures:

- *Severity/Harm*, the degree of impact that a deficient practice has on residents at the facility; and
- *Scope/Frequency*, the prevalence of a deficient practice within a facility, or the proportion of residents who were or could have been affected.

All Federal deficiencies fit into one of the following four grid levels, from most to least serious: Immediate Jeopardy, Significant Correction, Correction and Substantial Compliance. If this home had deficiencies at any of the four grid levels in the last survey, those deficiencies are listed below. Each deficiency listed is followed by the abbreviation of its federal regulation category: Quality of Care (QC), Resident Services (RS), Quality of Life (QL), Resident Rights (RR), Freedom from Restraints/Abuse (FA), Staffing/Staff Training (ST), Pharmacy/Lab Services (PL), and Administration (AD). **A deficiency may be listed more than once if it was cited more than once during the year. Also, some citations share the same title, so you may see separate citations listed with the same title on the same date.**

Certain Federal regulation deficiencies at the Immediate Jeopardy, Significant Correction and Correction grid levels cause a nursing home to be designated as having "Substandard Quality of Care (SQC)". **This home was not designated with SQC during the year 2018. 36 Wisconsin nursing homes received the SQC designation in 2018.** SQC deficiencies constitute: immediate jeopardy to resident health or safety; a pattern of or widespread actual harm that is not immediate jeopardy; or widespread potential for more

Immediate Jeopardy. This deficiency exists when a situation caused (or is likely to cause) serious injury, serious harm, impairment or death to a resident receiving care in the facility AND facility practice makes it probable that similar actions, situations, practices, or incidents will occur again. Immediate corrective action is needed. The nursing home received **NS Immediate Jeopardy deficiencies** in 2018.

Significant Correction. This deficiency exists when a situation resulted in a negative outcome that compromised a resident's ability to maintain or reach his/her highest practicable physical, mental, or psychosocial well-being. This nursing home received **NS Significant Correction deficiencies** in 2018.

Correction. This deficiency exists when a situation resulted in minimal physical, mental, or psychosocial discomfort to a resident and/or has the potential (not yet realized) to compromise a resident's ability to maintain or reach his/her highest practicable physical, mental, or psychosocial well-being. This nursing home received **NS Correction deficiencies** in 2018.

Substantial Compliance. This deficiency exists when a situation has the potential for causing only minor negative impact on residents. This nursing home received **NS Substantial Compliance deficiencies** in 2018.
