This two-page summary was prepared by the Division of Quality Assurance, Wisconsin Department of Health Services. For questions about this report, call (608) 264-9898. See the full report on the internet (after 5/1/17) at http://dhs.wisconsin.gov/bqaconsumer/NursingHomes/CIRindex.htm, or request a copy (after 5/1/17) at (608) 266-8368. The report should also be available in the facility.
Federal Violations Cited in State "Inspection" Surveys for

CENTRAL WISCONSIN CENTER FOR THE DEVELOPMENTALLY DISABLED

This summary table provides a count of federal violations cited for this FDD in 2016, by category of violation. County and state averages are shown as comparison data. Surveys are conducted by the State survey agency at least every 12 months, and may be conducted more often. See the full Consumer Information Report, 2016 for details.

INTRODUCTION

CENTRAL WISCONSIN CENTER FOR THE DEVELOPMENTALLY DISABLED

317 Knutson Dr
Madison, WI 53704
(608) 301-9200

- License Number: 2780
- DQA Regional Office: SRO
- This facility is licensed to operate as a Facility for the Developmentally Disabled (FDD)

- The owner of this FDD (the licensee) is: Wisconsin Dept Of Health Services
- This FDD is under government--state ownership.
- The 2016 Level of Federal Certification for this FDD is: Medicaid (Title 19) Nursing Facility (NF)

SECTION 1 of this report describes the numbers and types of Federal regulation deficiencies found during surveys conducted in 2016. "Deficiencies" are cited for noncompliance with Federal regulations. This section also compares these numbers to averages for all FDDs of similar size.

SECTION 2 provides information about staff turnover and staff retention rates at this FDD in 2016. It compares these rates to the averages for all FDDs of similar size.

APPENDICES (on the internet after 5/1/17) include: Appendix A - a list of resource agencies for consumers; Appendix B – information about how nursing staff turnover & retention rates are calculated; and Appendix C - statewide averages.
SECTION 1 - SURVEY RESULTS FOR THIS FACILITY

Facilities for the Developmentally Disabled (FDDs) in Wisconsin operate under rules enacted by the Federal government (for the Medicaid program) and by the State of Wisconsin. Surveyors from the Wisconsin Division of Quality Assurance conduct unannounced inspections at each FDD at least once each year to determine if the FDD complies with all State and Federal rules. State surveyors also conduct follow-up visits to ensure that violations have been corrected, and to investigate complaints.

When state surveyors determine an FDD is out of compliance with a Federal regulation, the FDD is cited with a violation or "deficiency." The number and type of violations cited in 2016 surveys are described in this report.

The number of Federal regulation deficiencies cited in Wisconsin FDDs during 2016 surveys ranged from 1 to 11, with an average of 4 deficiencies.

In 2016 surveys, CENTRAL WISCONSIN CENTER FOR THE DEVELOPMENTALLY DISABLED, Madison, which has 255 licensed beds, was cited with:

4 Federal regulation deficiency(ies)

Statewide, the average number of deficiencies for an FDD with 200 or more beds was 4.

In addition, this home was cited with 11 federal building safety violations. The number of federal building safety violations statewide ranged from 0 to 11 in 2016, with an average of 3.6 cites.
Federal Regulation Deficiencies:

To determine Federal regulation deficiencies, surveyors use a resident-centered process that places emphasis on individual outcomes. Surveyors observe the delivery of active treatment and interview individuals, families, advocates, and staff to confirm the individual's needs are appropriately and adequately met on a consistent basis.

If this home was cited with Federal deficiencies in 2016 surveys, those deficiencies are listed below. Each deficiency listed is followed by the abbreviation of its federal regulation category: Quality of Care (QC), Resident Services (RS), Quality of Life (QL), Resident Rights (RR), Freedom from Restraints/Abuse (FRA), and Other Violations (OT). A deficiency may be listed more than once if it was cited more than once during the year.

PROGRAM IMPLEMENTATION (QC) 09/15/2016
PROGRAM MONITORING & CHANGE (RR) 09/15/2016
NURSING SERVICES (QC) 09/15/2016
EVACUATION DRILLS (OT) 09/15/2016

For questions about this report, call (608) 264-9898. For further information about violations or more recent surveys, contact the administrator of this facility or the Division of Quality Assurance at (608) 266-8368
SECTION 2 - STAFF TURNOVER AND RETENTION

Nursing Staff:

This section provides two measures describing the rate of change among nursing employees from January 1, 2016 through December 31, 2016: a "turnover rate" and a "retention rate." The turnover rate is based on new hires during the year as a proportion of total staffing in a category. The retention rate is based on the proportion of staff in a category at the beginning of the year who are still employed by the end of the year. The formulas used to calculate nurse staffing turnover and one-year retention rates are explained in Appendix B.

Rates are calculated separately for full-time employees, persons working 37.5 hours or more per week, and part-time employees, persons working less than 37.5 hours per week. An "NS" indicates the FDD reported having no staff in that particular category.

Registered nurses (RNs) are licensed nurses who hold a certificate of registration by the State of Wisconsin. In 2016, this FDD had:

- A turnover rate for full-time RNs of 28%, vs. 16% statewide and 13% across all FDDs with 200 or more beds.
- A turnover rate for part-time RNs of 6%, vs. 5% statewide and 7% across all FDDs with 200 or more beds.

In some cases, the turnover rate might be artificially high because one position changes frequently throughout the year. For example, if an FDD with ten nurses had one position that was filled by five people throughout the year, the turnover rate is 50% (5 divided by 10) even though nine of the ten nurses did not change. The "retention rate" captures a sense of the stability of staff outside of the positions that changed frequently. In the example just used, the one-year retention rate is 90% (i.e., nine of the ten nurses had worked at least one year).
In 2016, this FDD had:

- **A retention rate for full-time RNs of 72%,**
  vs. 84% statewide and 88% across all FDDs with 200 or more beds.

- **A retention rate for part-time RNs of 94%,**
  vs. 95% statewide and 93% across all FDDs with 200 or more beds.

Licensed practical nurses (LPNs) are nurses who are licensed by the State of Wisconsin as practical nurses. At this FDD in 2016, there was:

- **A turnover rate for full-time LPNs of 0%,**
  vs. 0% statewide and 0% across all FDDs with 200 or more beds.

- **A turnover rate for part-time LPNs of 19%,**
  vs. 32% statewide and 43% across all FDDs with 200 or more beds.

- **A retention rate for full-time LPNs of 100%,**
  vs. 100% statewide and 100% across all FDDs with 200 or more beds.

- **A retention rate for part-time LPNs of 81%,**
  vs. 86% statewide and 83% across all FDDs with 200 or more beds.

Nursing assistants (NAs) provide direct personal care to residents, but are not registered nurses or licensed practical nurses. At this FDD in 2016, there was:

- **A turnover rate for full-time NAs of 25%,**
  vs. 24% statewide and 23% across all FDDs with 200 or more beds.

- **A turnover rate for part-time NAs of 19%,**
  vs. 24% statewide and 30% across all FDDs with 200 or more beds.

- **A retention rate for full-time NAs of 75%,**
  vs. 80% statewide and 83% across all FDDs with 200 or more beds.

- **A retention rate for part-time NAs of 81%,**
  vs. 84% statewide and 82% across all FDDs with 200 or more beds.
