What is a "binge"?

A "binge" is a pattern of drinking that brings a person's blood alcohol concentration (BAC) to 0.08 gram percent or above. For the typical adult this is consuming the following amount in about 2 hours:

- 4 or more drinks (female)
- 5 or more drinks (male)

A standard drink is:

- 12 oz of beer
- 5 oz of wine
- 1.5 oz of distilled spirits or liquor

Maximum Number of Alcoholic Drinks on One Occasion among Wisconsin Adult Binge Drinkers

Among Wisconsin adult binge drinkers the average number of drinks consumed far exceeds the thresholds of 4 (females) or 5 (males) drinks. The maximum average number of drinks consumed is 6.4 (females) and 9.3 (males).

In Summary

The prevalence of binge drinking among adults in Wisconsin is one of the highest in the United States. There are many negative consequences associated with binge drinking including health, social, and economic factors. If you are 21 years of age or older and choose to drink alcohol, consider the consequences and do so in moderation.

Fast Facts
