

Wisconsin Well Woman Program Reporting Instructions for Ductograms, Galactograms, and MRIs

1. How to report the results of a mammary ductogram or galactogram, CPT Code 77053 (single duct)

- a. Report CPT Code 77053 on the Breast Cancer Diagnostic and Follow-Up Report (DRF) F-44724. The result of a mammary ductogram or galactogram is to be reported by writing the result in space number 30. Numbers 31-33 on the remainder of the form are to be completed based on the results of the procedure. Submit the DRF to ForwardHealth the same way all other DRFs are submitted, either electronically through the portal or via U.S. mail.

Send a copy of the Breast Cancer Diagnostic and Follow-up Report (DRF) F-44724, and a copy of the radiology report of the procedure to:

Ruth M. Benzie, RN, WWWP Service Delivery Coordinator
1 W. Wilson St., Room 218
PO Box 2659
Madison, WI 53701

Or

Fax them to Ruth M. Benzie, RN, at 608-261-6859.

b. Claim Payment

Submit the claim to HP/ForwardHealth using the same process used for all other WWWP breast diagnostic procedures. HP/Forward Health will pay the claim for the CPT code without a result entered into the system. The result will be communicated to the coordinating agency as all results are by sending a copy of the completed reporting forms (DRF) as directed in the WWWP Policy and Procedure Manual in Chapter 1, page 1.5, under Provider Responsibilities for Reporting, and page 1.8, the second bullet under Provider Responsibilities for Case Management of Normal Results.

2. How to report the results of a Breast MRI with and/or without contrast CPT Code 77058 (unilateral) and CPT Code 77959 (bilateral)

WWWP Policy for Breast MRIs:

Breast MRI can be reimbursed by the NBCCEDP in conjunction with a mammogram when a client has a BRCA mutation, a first-degree relative who is a BRCA carrier, or a lifetime risk of 20-25% or greater as defined by risk assessment models such as BRCA PRO that are largely dependent on family history. Breast MRI can also be used to better assess areas of concern on a mammogram for evaluation of a client with a past history of breast cancer after completing treatment. Breast MRI should never be

done alone as a breast cancer screening tool. Breast MRI cannot be reimbursed by the NBCCEDP to assess the extent of disease in a woman who is already diagnosed with breast cancer. WWWP will be conducting retrospective reviews on all MRI performed procedures.

WWWP does not reimburse for genetic testing such as BRCA testing.

- a. Report CPT code 77058 or 77059 on the Breast Cancer Diagnostic and Follow-Up Report (DRF) F-44724. The result of the unilateral or bilateral MRI is to be reported by writing the result in space number 30. Numbers 31-33 on the remainder of the form are to be completed based on the results of the procedure. Submit the DRF to ForwardHealth the same way all other DRFs are submitted, either electronically through the portal or via U.S. mail.

Send a copy of the Breast Cancer Diagnostic and Follow-up Report (DRF) F-44724, a copy of the radiology report of the procedure, and the results of the risk assessment to:

Ruth M. Benzie, RN, WWWP Service Delivery Coordinator
1 W. Wilson St., Room 218
PO Box 2659
Madison, WI 53701

Or

Fax them to Ruth M. Benzie, RN, at 608-261-6859.

- b. **Claim Payment**

Submit the claim to HP/ForwardHealth using the same process used for all other WWWP breast diagnostic procedures. HP/Forward Health will pay the claim for the CPT code without a result entered into the system. The result will be communicated to the coordinating agency as all results are by sending a copy of the completed reporting forms (DRF) as directed in the WWWP Policy and Procedure Manual in Chapter 1, page 1.5, under Provider Responsibilities for Reporting, and page 1.8, the second bullet under Provider Responsibilities for Case Management of Normal Results.
