

JUST FOUND OUT YOU HAVE HIV?

WHAT YOU NEED TO KNOW

You can live a long, healthy life with HIV

There are people who can help - even if you have no insurance

HERE ARE THE PEOPLE WHO CAN HELP

The HIV testing agency

They will work with the health department and connect you with other services you may need to get care for your HIV.

The health department

They will help notify and test your partners confidentially without giving your name or information. They can also link you to an HIV Linkage to Care Specialist or case manager.

The linkage to care specialist or case manager

They can help you find options for HIV medical care, treatment, health insurance, transportation, and other services.

The HIV medical care team

The nurses and doctors will help treat your HIV to keep you healthy.
