

# Imagine This:

- ✓ You live in a 2-3 bedroom 1,500 square foot home.
- ✓ Your home was built before 1978.
- ✓ You have children in the home.

Lead dust usually comes from old chipping and peeling paint.

## How Much Lead Dust Does it Take to Poison a Child?

The *size* of one sugar packet, *if it contained lead dust*, could contaminate a 2-3 bedroom home and...**Poison a Child!**

For more information on Childhood Lead Poisoning Prevention please call 608-266-5817 or go to the *Lead-Safe Wisconsin* Website at <http://dhs.wi.gov/lead>.
