By protecting yourself, you are protecting your baby.

GET YOUR FLU SHOT.

In 2015, only half of pregnant women in Wisconsin got the flu shot.

For more information on where to get your flu shot, visit www.dhs.wisconsin.gov/influenza

- Newborn babies are at high risk of getting the flu and are too young to get the flu shot.

- Getting the flu shot when you are pregnant, protects you from the flu and your newborn baby will be protected from the flu for several months after birth.

WHO CAN YOU PROTECT?
