HPV (1): 1 or more doses of human papillomavirus vaccine

HPV Complete: 2 or 3 doses depending on age at vaccine series initiation. The Advisory Committee on Immunization Practices changed their HPV recommendation from a three dose series to either a two or three dose series depending on age at vaccine series initiation. Prior to 2017, HPV complete rates reflect a 3 dose series.

Mening ACWY (1): 1 or more doses of meningococcal ACWY vaccine

Mening ACWY UTD: Includes only clients 17-18 years old. Clients are considered up-to-date (UTD) if they have received a meningococcal ACWY dose prior to age 16 years and a booster dose at or after 16 years or if they received one meningococcal ACWY dose at or after age 16 years.
