

## Referral to Linkage to Care for Confirmatory Testing and Care

### Linkage to Care Specialists

Linkage to care specialists are specialized case managers who work to connect people newly diagnosed with HIV to medical care and other social services. Linkage to care specialists are based at an agency but can help connect people to wherever they would like to go for care.

**Pharmacists should only call the linkage to care contacts listed for their pharmacy.** Refer to the Pharmacist Referral to Confirmatory Testing workflow.
