

# GET PAID

## for Home-Based Caregiving

### Are you a current caregiver? Want to become a caregiver?

Through a partnership between counties and the Wisconsin Department of Health Services, there may be opportunities to get paid for providing home-based services to children with disabilities and their families.

### MAKE A DIFFERENCE in someone's life.

- Many families are looking for caregivers to help their children increase or maintain their daily capabilities at home, at school, or in the community.
- The number of children with disabilities being served through the children's state waiver program is projected to grow by 30% in 2018. As the number increases, caregivers will be more important than ever—especially since we have a caregiver shortage.

### BECOME AN APPROVED CAREGIVER and be a part of the solution.

- Contact the local county human services agency to find out how you can become an approved caregiver for children with disabilities in the Children's Long-Term Care Waiver Program.
- Even if you are a friend or extended family member helping a loved one, you can get paid.
