

# Percent of adults aged 50 years and older who are up-to-date\* for the zoster (shingles) vaccine, 2020 and 2021

\*The Advisory Committee on Immunization Practices changed their Zoster recommendation at the end of 2017 from one Zostavax dose for individuals 60 years and older to two Shingrix doses for individuals 50 years and older. Zoster up-to-date status represents individuals 50 years and older who have received two Shingrix vaccine doses.
