

Wisconsin Suspected Opioid Overdose Report

Wisconsin Department of Health Services, Division of Public Health
Office of Health Informatics and Office of Preparedness and Emergency Health Care

The following data are based on suspected* opioid overdose cases in Wisconsin as determined by Wisconsin ambulance run reports.
These data are provisional and subject to change.

OPIOID OVERDOSE AMBULANCE RUNS AT-A-GLANCE	
State	
MONTH*	
May	316
May Rate per 100,000	6.1
YEAR TO DATE (YTD)	
Count	1645
Rate (per 100,000)	31.7
% of total ambulance runs	0.6
Naloxone doses administered	1701

*The most recent month available

*These data include all ambulance runs within Wisconsin coded as 911 responses for individuals aged 11 years and older; medical transports and other non-emergency transports have been excluded. Data are determined from free-text fields via key words of interest and exclude visits that appear to be related to withdrawal, detox, or intentional overdose. These cases have not been confirmed by clinicians.
