Chapter 1: Background

The Program Participation System (PPS) records Wisconsin’s Birth to 3 Program referral, enrollment, transition, and outcome data.

Reporting for the Wisconsin Birth to 3 Program is required by Wis. Admin. Code §§ DHS 90.05(3)(a) and 90.06(2)(o). Data from PPS is used to meet the annual October 1 Child Count reporting requirements of the U.S. Department of Education, Office of Special Education and Rehabilitative Services, as authorized under 20 U.S.C. §§ 1476(b)(14) and 1418(b)(1) and (5).

Data retrieved from the Birth to 3 Program PPS module is used to prepare the Annual Performance Report (APR) submitted to the Office of Special Education (OSEP), the governor, and each house of the Wisconsin state legislature.
Chapter 2: Accessing PPS

This section outlines the steps required to gain access to the Birth to 3 Program module in PPS.

To access PPS, you must:
1. Have Microsoft Internet Explorer 6.0 or higher installed as your internet browser.
2. Obtain your WAMS ID and password from https://on.wisconsin.gov/WAMS/SelfRegController.
3. Provide your WAMS ID along with a completed User Agreement for System Access form, F-00044, to your county security officer, who grants access to PPS.

If you are unsure who your security officer is, contact the appropriate Wisconsin Birth to 3 Program state technical assistance (TA) lead, who will provide you with the correct contact information.

If you are having any PPS system issues, you can call the DHS SOS Desk 608-261-9198 or email dhssoshelp@wisconsin.gov.
Chapter 3: Using PPS

This section provides information on how to log into and navigate PPS.
2. From this page, select PPS – Production. This is where child and family information is recorded in the system.

3. The PPS Login page will appear. Enter your WAMS ID (in the User ID field) and password.
4. Click Login.

The Birth to 3 Program PPS homepage appears.
Two items are embedded in the left-hand side of the blue header bar:

- The environment of PPS being accessed (that is, Production or Testing).
- The current user’s ID number and name.

The printer icon, the Help button, and the Logout button are located on the right-hand side of the blue header bar.

The Navigation Menu is located along the left-hand side of every page in PPS.

A list of recent searches will appear in the body of the PPS home page.
Help Page

Open the Help page at any time by clicking the Help button located in the upper right-hand corner of the blue header bar.

A detailed list of topics related to the screen that is currently open will appear.

Click the brief description that best describes what you need help with.

![Help Page Screenshot]

By selecting the Help button, a new window will open that shows the help page.

PSS Help Page is context sensitive. It will open up to the place where there information about the page you currently are on in PPS.
Chapter 4: The Search Function

The PPS Search Criteria page is used to find a particular child. Before entering a child into PPS, a search **must** be completed to confirm that a new child is not a Birth to 3 Program participant in the system.

Searching for a Child

1. Select **Search** from the Navigation Menu on the left-hand side of the screen.
2. Enter the child’s first and last initials and date of birth. Do not search by Social Security number. PPS will allow the user to enter impossible values. Therefore, it is critical to carefully enter and verify search criteria.
3. Select **Go**.
4. Results associated with the search criteria will appear.

Search Results

1. To view additional details about the child(ren) listed in the search results, click on the magnifying glass on the right-hand side of the screen in the Details column. If no possible matches appear, verify that the search criteria (the child’s initials and date of birth) were correctly entered.
2. After identifying the child in your program click the magnifying glass to open the individual summary page. If the child is currently served by another county Birth to 3 Program, the **Add** button will be grayed out or disabled. Contact your TA lead if you encounter this issue.
3. If you discover a child has been mistakenly entered more than once, contact your Birth to Program TA lead to resolve the issue.
Chapter 5: Basic Registration

Basic Registration Page

The primary purpose of the Basic Registration page is to add a new record into PPS for a child who is not in the PPS system. The Basic Registration screen is only used to add a new record after confirming there are no search matches for the child.

A. Click on the Basic Information tab in the left navigation menu.
B. Enter the required child demographic information into the correct fields.
C. Select the Next button.

If there are any records in the system with similar information entered, results will appear. A percentage of 84 or higher indicates a match for the child and a record already exists. To choose a record, click on the radio button to the left of the child’s information and click Next.

If no match is found, create a new individual in the PPS system:
1. Click on the radio button to the left of “Create new individual.”
2. Click Next.
3. Click on the radio button to the left of the child’s name.
4. Click Next.

The individual summary page for the child appears.

1. Click **Inbox** in the left navigation bar.
2. Select the Required Information.
3. Click **Go**.

   A list of referrals that need to be processed appears (if you chose status of “not processed”).

The purpose of the Service Planning page is to document the development and implementation of an individualized family service plan (IFSP). The Child and Referral Information and Screening/Evaluation pages must be completed prior to entering data on the Service Planning page, which includes the following sections:

- Initial IFSP date
- Entry child outcome information
- Services
- Additional assessment

Initial IFSP Date Section

- Enter the date of the initial IFSP meeting when the child’s parents or guardian gave consent for services on the initial IFSP, including an interim IFSP.
- If the IFSP is completed after 45 days from the referral, enter the reason for the late IFSP in the corresponding field.
  - Exceptional family reason: IFSP was late due to family circumstances (e.g., child or family member illness, vacation).
  - System reason: This action was late due to staff and/or agency.
  - Extreme weather: Weather resulted in travel advisories and/or unsafe conditions (such as school or road closures), delaying completion of the IFSP.
Entry Child Outcomes Information Section

PPS requires entry child outcome information to be completed and saved in order to move to the Services section.

Select the child’s three entry outcome ratings, as determined by the team for:
• Positive socio-emotional skills
• Acquiring and using knowledge and skills

Once you enter Initial IFSP information on the Service Planning page of PPS, you must also complete Entry Child Outcome information. PPS will not allow you to exit the Service Planning page until you complete Entry Child Outcome information. If you attempt to exit the Service Planning page without completing the Entry Child Outcome information fields, you will receive a red warning stating you must complete Child Outcome information before moving forward or exiting the Service Planning page. For each entry rating, select a value from 1-7. There will only be an “8” value when all three outcomes are not applicable.

    a. Child turned 3, referred to LEA, LEA found child eligible for special education. This exception reason is used for a child served in the Birth to 3 Program who reached maximum age and was determined to be eligible by an Individual Education Plan team for early childhood special education services or related services.
    b. Child turned 3, referred to LEA but ineligible, referred to other programs. This reason is used for a child served in the Birth to 3 Program who reached maximum age and was determined by an IEP team not to be eligible for early childhood special education services. The Birth to 3 Program staff discussed and explored other options at age 3 with the parents.
    c. Child turned 3, referred to LEA but ineligible, not referred to other programs. This reason is used for a child served in the Birth to 3 Program who reached maximum age and was determined by the IEP team not to be eligible for early childhood special education services. The IFSP team did not discuss other options for service delivery with the family.
    d. Child turned 3, referred to LEA, eligibility pending for special education. This reason is used for a child who was referred for an evaluation to determine special education eligibility but eligibility has not yet been determined by an IEP team.
    e. Child is no longer in need of services. Successful completion of the IFSP. This reason is used for a child who met the outcomes on their IFSP, and no longer requires services under the Birth to 3 Program. The IFSP team, including the parents, makes this determination.
    f. Family chose to discontinue services. This reason is used for a child whose parents declined all services after an IFSP was in place.
    g. Child moved within the state. This reason is used for a child who moved within Wisconsin.
    h. Child moved out of the state. This reason is used for a child who moved out of Wisconsin.
    i. Death of child. This reason is used for a child who died.
    j. Child under 3, Birth to 3 Program unable to locate family after many attempts. This reason is used for a child with an active IFSP who has not reached the maximum age and for
whom Birth to 3 Program personnel have been unable to contact the family or child after repeated, documented attempts.

j. **Child turned 3, parents did not consent to LEA referral and/or LEA evaluation.** This reason is used when a family signed the Opting Out of Local Education Agency (LEA) and State Education Agency (SEA) Notification form, F-00169.

k. **Child turned 3, not referred to LEA as not believed to be eligible.** This reason is used for a child who was not referred to the LEA for an evaluation because the team determined that they are not potentially eligible for LEA services.

l. **Child did not qualify for Birth to 3 Program or no evaluation recommended.** This reason is used for a child who was evaluated and determined not eligible for the Birth to 3 Program or who passed a screening.

m. **Parents chose not to enroll in Birth to 3 Program or declined the next steps offered by Birth to 3 Program.** This reason is used at any point prior to the initial IFSP being developed when the program is either unable to connect with the family or the family declines to participate in what the program is offering.

n. **Child turned 3 and referred to LEA prior to transfer to current B-3 program.** This reason is used for children who, prior to transferring to the current Birth to 3 Program, had been referred to the LEA by the previous county Birth to 3 Program.

If a child was referred to the LEA and moves prior to turning three, check the box below the closing date and enter the date the new county birth to 3 program was contacted about the child moving to their county.

**Child Outcome Information Section**

- Enter the child’s three exit child outcome ratings determined by the team. For each exit rating, select a value from 1-7. There will only be an “8” value when all three outcomes are not applicable.
- For each child outcome, choose “yes” or “no” in the field “Has the child shown any new skills or behaviors related to that child outcome since the previous rating?”
- When entering Exit Child Outcome Summary (COS) ratings there are a multitude of impossible values that can happen. Below is a chart from Infant Toddler Coordinators Association giving examples on when to select Yes and No for each child outcome rating. Remember that one cannot enter an 8 unless all child outcomes are 8.
