**Wisconsin Regional Centers**
Children and Youth with
Special Health Care Needs

Welcome to the Regional Center!
www.dhs.wisconsin.gov/cyshcn/regionalcenters.htm

This is a great resource for your family! The Children and Youth with Special Health Care Needs (CYSHCN) Program has regional centers that help families who have children with complex medical conditions: We help you find resources that will support you.

Does your family need:
- A device to help your child with hearing or speech?
- Equipment like a van or vehicle lift?
- Home modifications?
- Respite care?
- Training for an unpaid caregiver?

We want to help you enroll your child in the Children's Long-Term Support (CLTS) Waiver Program so you can use services and programs your child may need. Even if you applied for the CLTS Program in the past and didn't get it, we would like to hear from you so we can help you reapply in the future. **You don't have to do it alone; we are here to help you.**

Feel free to contact the regional center with any questions you have about your child, for example:
- What services are available for my child?
- How do I find a dentist for my child?
- Are there special programs for health insurance or public benefits?
- Where can I go to receive some support as a parent?

We are available during the week to talk with you by phone or connect by email. We look forward to talking with you soon.
