

Managed Care Organization (MCO) Scorecard Frequently Asked Questions

What is the purpose of the Scorecard?

The purpose of the Scorecard is to help you choose a managed care organization (MCO) based on the factors that are most important to you. The Scorecard gives you information about how current members feel about their MCO and how well MCOs meet state standards. The Scorecard also provides contact information and other facts about the MCOs that are available for you to choose from.

Where does the information in the Scorecard come from?

Information in the Scorecard comes from a variety of sources:

- **Member Survey** section shows results from the state's annual member satisfaction survey
- **Quality and Compliance** section shows results from the state's annual MCO quality compliance review
- **Care Team Characteristics** section and Additional Information section show information reported by the MCOs about their organization

What is the member satisfaction survey?

The member satisfaction survey is an annual set of questions mailed to current members of each MCO to gather feedback on their experience with their MCO. The state collects and analyzes survey responses to find out how happy members are with their care team, how engaged they are in creating their care plan, and how well their MCO helps to meet their needs.

What is the MCO quality compliance review?

The MCO quality compliance review is an assessment that captures how well MCOs meet certain performance standards set by the state. It is conducted every year by an external quality review organization that works with the state. The external quality review organization looks to make sure that the MCO has policies, procedures, and processes in place to deliver high-quality services to members.

What do nonprofit and for profit mean?

The Type of Agency section in the Scorecard describes which type of organization each MCO is. A nonprofit organization is a group organized for purposes other than generating a profit and in which no part of the organization's income is distributed to its directors or officers. A for profit organization is a business that operates for the purpose of making a profit.

When was the Scorecard last updated? How frequently is it updated?

The Scorecard was last updated in 2021. It is updated annually.

Why doesn't the Scorecard provide other information about MCOs I am interested in?

The Scorecard presents only information that has been validated by the state. The ratings provided in the Scorecard are based on only the most current verifiable data, providing you with the most objective factors to help you make your MCO selection.

Measure	Care Manager to Member Ratio
Data Source	Ratio is reported as of July 1, 2021, based on staff full-time equivalents (FTE) and enrollment. The staff to member ratio expresses a comparison between the number of staff in the MCO to the number of members in the MCO. "1:x" is interpreted as: For every 1 care manager, there are x members. A lower ratio indicates that there are fewer MCO members to each care manager, whereas a higher ratio indicates that there are more MCO members to each care manager.
Rating System	No ratings are assigned for staff to member ratios. All MCO staff ratios are in compliance with state standards.
