Maxaa Keena MIS-C?

Weli waa wax la baarayo waxa keena xanuunka MIS-C. Waxa la ogyahay waa in uu xanuunka MIS-C ku dhaco carruurta, sida COVID-19 ka dib ama marka ay ku dhawaadaan qof qaba COVID-19. MIS-C waa xanuun halis ah, laakiin marka carruurta goor hore laga helo oo laga gaaro waa ay ka bogsadaan.

COVID-19 ka difaac ilmahaaga oo dhan

Sida ugu fiican ee looga hortagi karo MIS-C waa in ilmaha laga difaaco COVID-19. Waxa kale oo aan ognahay inaysan dadka qaar nasiib u lahayn oo aysan dhaqaalaha awgiis awoodin in ay sameeyaan wax kasta oo ah ka-hortagid.

Waa in la sameeyo wax kasta oo looga hortagi karo oo ilmaha laga difaaco COVID-19:

- Waa in ay ilmuu soo qaataan tallaallada COVID-19 ee laga rabo, iyo xoojiyeyaasha haddii la idinkula taliyo.
- Waa in ay ilmaha ka weyn 2 jirka gafuurxir ku isticmaalaan meelaha uu ku badan yahay COVID-19 iyo meelaha gafuurxirka la iska rabo (sida goobaha daryeelka caafimaadka).
- Waa in aad fahamto khatarta ay qoyskaagu ugu jiraan COVID-19 si aad go'aan fiican uga gaarto badqabidda iyo caafimaadka qoyska.
- Iska hubso in ilmahaagu ay mar kasta gacmaha ku dhaqdaan biyo iyo saabuun ugu yaraan 20 ilbiriqsi.
- Ka fogow dadka xanuunsan oo dhan.
- Kala hadal dhakhtarka ilmaha wixii kale oo dheeraad ah oo aad sameyn karto si aad ilmahaaga uga difaacdo marka uu COVID-19 noqdo halis daran.
