Let your contacts know.

If you test positive, notify people you’ve been in close contact with and tell them to get tested.

What do you tell your close contacts?

A 14-day quarantine remains the safest option, but a shortened quarantine may apply to them.

Get a COVID-19 test, even if they don’t have symptoms.

Contact their doctor or local health department with questions.

Visit dhs.wisconsin.gov/covid-19 for more information.
