

# Allocation Process from the Federal Government to COVID-19 Vaccination

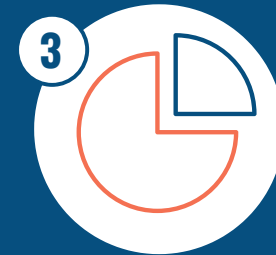

This process from start to finish takes between 7 and 10 days

1  
Federal government gives allocation amount for upcoming week

2  
DHS sends survey to all Wisconsin vaccinating entities to see needs and on hand vaccine

3  
DHS allocates vaccine based on an allocation model

7  
Vaccinating entities receive vaccine

6  
Federal government ships vaccine

5  
DHS sends orders to federal government

4  
Schedule clinics

8  
Vaccinate Phase 1A individuals

9  
Vaccinators update the Wisconsin Immunization registry with data

10  
Check data for accuracy

Each vaccine takes moments but the paperwork and monitoring takes additional time based on each participant.
