

# COVID-19

## Treatment Telehealth Service

### Do you have symptoms of COVID-19?

**All Wisconsin residents over the age of 18 have access to a free COVID-19 treatment telehealth consultation and prescription.**

- A clinician will evaluate you and may prescribe a highly effective antiviral pill such as Paxlovid.
- Do not delay. Even if your symptoms are mild, seek treatment right away. COVID-19 anti-viral treatment is effective at keeping people out of the hospital or dying from COVID-19.
- **Follow the steps listed below.**

### 1. Get Ready

- **Make sure you have** a list of medications, supplements, or vitamins you are taking
- If you have kidney disease, bring a copy of your lab results within the last three months

### 2. Register

- **Click:** [color.com/covid-19-treatment-wi](https://color.com/covid-19-treatment-wi)
- **Call:** 833-273-6330
- or **Scan:**

### 3. Connect

**Join** the video or telephone call to begin your consultation **within 30 minutes**

### 4. Order

If you are prescribed antiviral treatment, pick it up at your pharmacy or have it overnight mailed to your residence via home delivery

#### Need help?

Clinicians are available seven days a week from 8 a.m. to 8 p.m. CT.

This service is offered in collaboration with Color Health, Inc. If you need help, contact the Color Support Team at 844-352-6567 or email [treatments@color.com](mailto:treatments@color.com) from 8 a.m. to 7 p.m. CT.
