

# Welcome to Wisconsin Public Health Nursing

---

Wisconsin's public health nurses (PHNs) apply nursing and public health principles to assess, develop, implement, and evaluate plans and health programs related to health promotion, disease prevention, and health protection services for individuals, families, and the community ([Wis. Admin. Code ch. DHS 139](#)). All local health departments (LHDs) in Wisconsin are required to conduct a general public health nursing program. [Wis. Admin. Code § DHS 140.03\(5\)](#) defines a program as follows:

"General public health nursing program" means the organization and delivery of public health nursing services by public health nurses qualified under s. [250.06 \(1\)](#), Stats., and s. [DHS 139.08](#) to individuals within the jurisdiction of the local health department.

To review the required services of all LHDs in Wisconsin, reference [Wis. Admin. Code ch. DHS 140](#).

## Office of Policy and Practice Alignment (OPPA) Public Health Nurse Consultants (PHNC)

The OPPA PHNC team is part of the Wisconsin Department of Health Services housed in the Division of Public Health. OPPA PHNCs support the PHNs working in local and Tribal health departments across the state.
