

Competitive Integrated Employment

Summary of Competitive Integrated Employment (CIE) Data

State Fiscal Year (SFY) 2020 (July 1, 2019–June 30, 2020)

People of Working Age 18–64

Enrolled in Family Care, Family Care Partnership, and IRIS

Introduction

The DHS Guiding Principles for CIE For People in Long-Term Care¹ states, “Competitive Integrated Employment (CIE) is the first and preferred employment outcome for all youth and adults.” Work benefits people with disabilities by increasing quality of life, improving health and self-confidence, bettering social life, and increasing sense of community.^{2,3,4,5} By encouraging and supporting more long-term care members and participants to work in CIE, these benefits are realized by more people and more communities. For people with disabilities, employment means greater economic self-sufficiency, better physical and mental health, an opportunity to use their skills, and more active participation in community life. There are also multiple benefits to employers who hire people with disabilities like an expanded hiring pool, enhanced profit margins, and improved retention rates⁶.

This report summarizes the Wisconsin Department of Health Services (DHS) Division of Medicaid Services (DMS) CIE data collected for SFY 2020 along with DHS Encounter data. CIE

data is obtained quarterly from managed care organizations (MCO) and IRIS (Include, Respect, I Self-Direct) consultant agencies (ICAs) through the DHS information exchange system (IES).

CIE Definition

For the purposes of this summary report, CIE is defined as:

- Work performed on a full-time or part-time basis.
- Compensated not less than the applicable state or local minimum wage law (or the customary wage), or if self-employment, yields income comparable to persons without disabilities doing similar tasks.
- The worker should be eligible for the level of benefits provided to other employees.
- The work should be at a location typically found in the community, where the employee with a disability interacts with other persons who do not have disabilities and are not in a supervisory role.
- The job presents opportunities for advancement.⁷

DHS CIE criteria outlined in the MCO contract further clarifies the Workforce Innovation Opportunity Act (WIOA) definition and includes the following criteria:

Compensation Wage Employment:

- Paid at state minimum wage (or local minimum wage if a local ordinance sets the minimum wage higher than the state minimum wage) or higher.
- Self-Employment: Yields income comparable to persons without disabilities doing similar tasks, and for those self-employed at least one year, the income, when calculated on a per-hour worked basis, is at least state minimum wage or the customary wage for that type of employment.

Location: The work location must be a location typically found in the community.

Interactions: When at the work location, the employee with a disability routinely interacts with coworkers and customers or patrons who do not have disabilities to the same extent as a worker without disabilities filling the same or similar position would interact with coworkers and customers or patrons who do not have disabilities.

Coworkers and customers or patrons do not include supervisors or provider agency staff providing supported employment or personal care supports to the employee with a disability.

Individualized Position: The person is employed or self-employed in a distinct position. This means:

- The person is not sharing a job with another person(s) with disabilities that the business would consider to be one job, unless those sharing a position are working at different times or days.
- If all other CIE criteria are met, two or more people with disabilities in two different positions at the same employer and sharing job coaching support is considered CIE. The

⁷ Workforce Innovation and Opportunity Act (WIOA) amended Rehabilitation Act Title IV 2014

person is not working in a team (side by side, same work schedule, identical or virtually identical tasks and duties).

- If all other CIE criteria are met, people working in the same business at the same time who are sharing job coaching support and may be doing similar tasks with the same work schedule may be counted as CIE as long as each person is working in a distinct position.
- People working in teams of 2 to 8 (for example, in an enclave or as part of a work crew) are considered to be in group community employment, not CIE. This exclusion applies regardless of the service title and billing code used for waiver-funded supports needed to work.

Employer of Record: CIE assumes that in the vast majority of cases, the employer of record will be the business or organization that:

- Operates the location(s), typically found in the community (as defined above), where the individual engages in paid work.
- Benefits directly from the work done by the person with a disability.

The only exceptions to this expectation are when:

- The business or organization does not typically act as employer of record for other employees without disabilities.
- The business or organization is a government entity, including tribal government, and/or a unionized workplace.

In these two documented situations, the employer of record may be a provider of services.

SFY 2020 Data Details

- Both the WIOA CIE definition and the DHS CIE criteria were used to determine individuals of working age (18–64) participating in CIE in Wisconsin in the Medicaid waivers that include Family Care, Family Care Partnership, and IRIS.
- Five MCOs and seven ICAs participate in the CIE wage data collection.
 - The MCOs include Community Care Inc., iCare, Inclusa, Lakeland Care, and My Choice Wisconsin.
 - The ICAs include Advocates 4U, Connections, Consumer Direct of Wisconsin, First Person Care Consultants, Midstate Independent Living Choices (MILC), Progressive Community Services (PCS), and The Management Group (TMG).
- DHS collects CIE data from MCOs and ICAs who gather CIE information from both vocational supported employment providers and from the individuals working in CIE who do not receive supported employment services to support them with their job.
- DHS CIE wage data includes individuals from the age of 18 until they no longer receive services in the Medicaid waivers. However, the SFY 2020 data represents CIE wage data from people 18 to 64 years of age, which is considered working age for this report.
- There are 113 people over the age of 65 working in CIE, but these individuals are not represented in the data, narrative, or charts in this report.

SFY 2020 Data Results

- There are 41,694 people of working age (18–64) served by adult Medicaid waivers that include Family Care, Family Care Partnership, and IRIS.
 - Family Care 27,772 working age members

- Family Care Partnership 1,912 working age members
- IRIS 12,010 working age participants
- There are 5,814 unique people working in CIE in Family Care, Family Care Partnership, and IRIS.
- These 5,814 people earned approximately \$32.2 million dollars and paid taxes on their earnings.
- Of the people working in CIE, 51% do not receive supported employment support services from long-term care to help them with their job. In other words, 51% of the people working in CIE are working independently without paid job support.
- There are 3,540 Family Care and 83 Family Care Partnership working age members in CIE.
- There are 2,191 IRIS working age participants working in CIE.
- The median wages earned by members and participants combined is \$9.00 per hour.
- The median hours worked per week by Family Care, Family Care Partnership, and IRIS individuals is 11 hours per week.
- The median wages earned by IRIS participants is \$8.60 per hour.
- The median wages earned by Family Care members is \$9.00 per hour.
- The median wages earned by Family Care Partnership members is \$9.10 per hour.
- The median hours worked per week by IRIS participants is 10 hours.
- The median hours worked per week by Family Care members is 12 hours.
- The median hours worked per week by Family Care Partnership members is 12 hours.

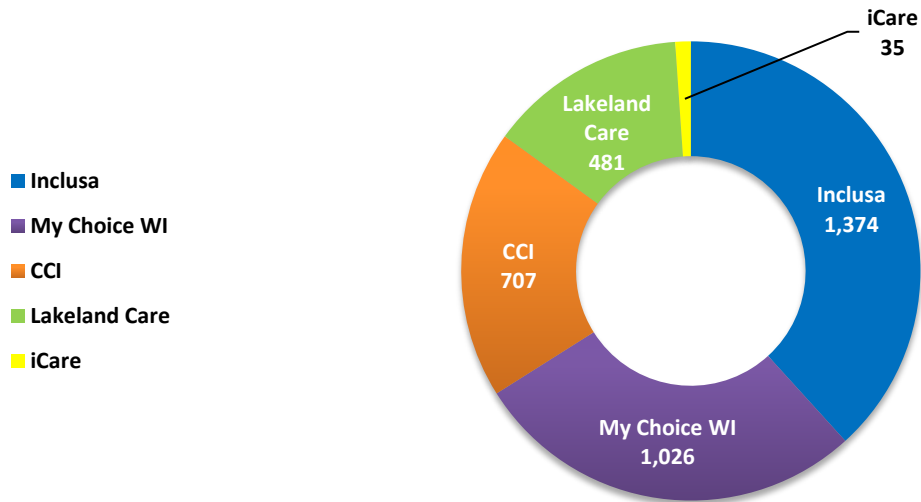

Charts

SFY 2020 Charts

The twelve (12) charts below include data for SFY 2020. The charts below indicate the number of people working in CIE by MCO and ICA along with the median wages and hours worked by individuals per MCO and ICA. Charts also include the percentage of the working age population in each MCO and ICA working in CIE and the percentage of the working age population in CIE who are in Family Care, Family Care Partnership, and IRIS. Final charts include the number of individuals in CIE who are also participating in daytime services, which include day habilitation services and facility and community-based prevocational services, and CIE enrollment by Geographic Service Region.

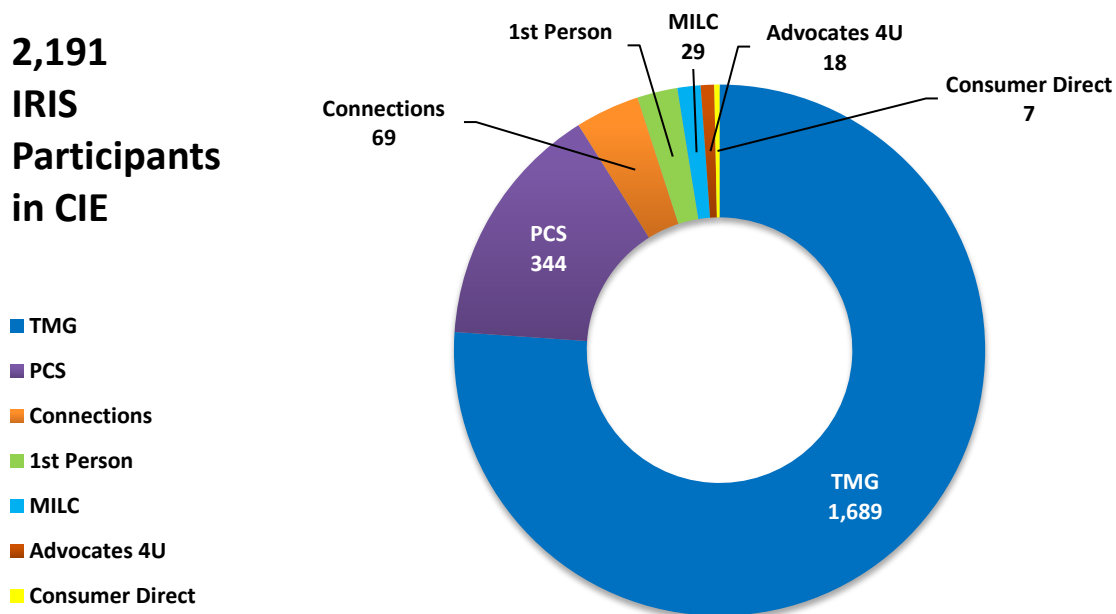

Number of Unique Working Age Members Working in CIE by MCO (SFY 2020)

3,623 Family Care or Family Care Partnership Members in CIE

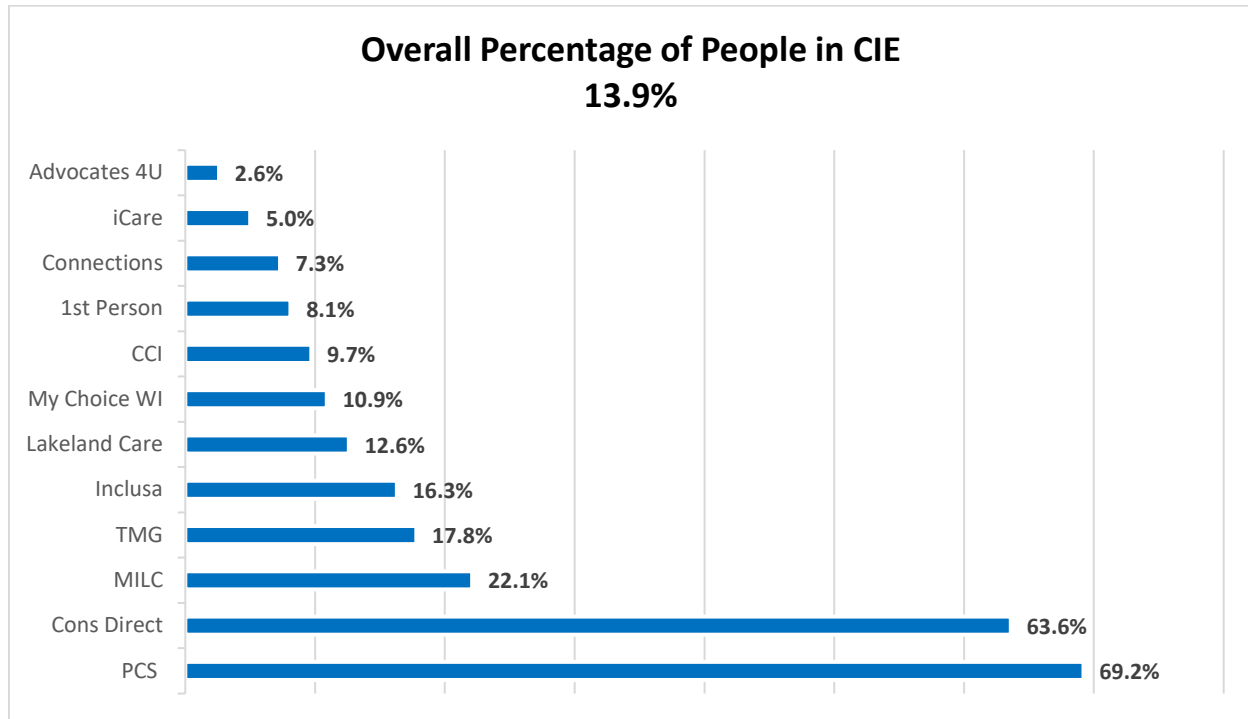

Number of Unique Working Age Participants Working in CIE by IRIS Consulting Agency (SFY 2020)

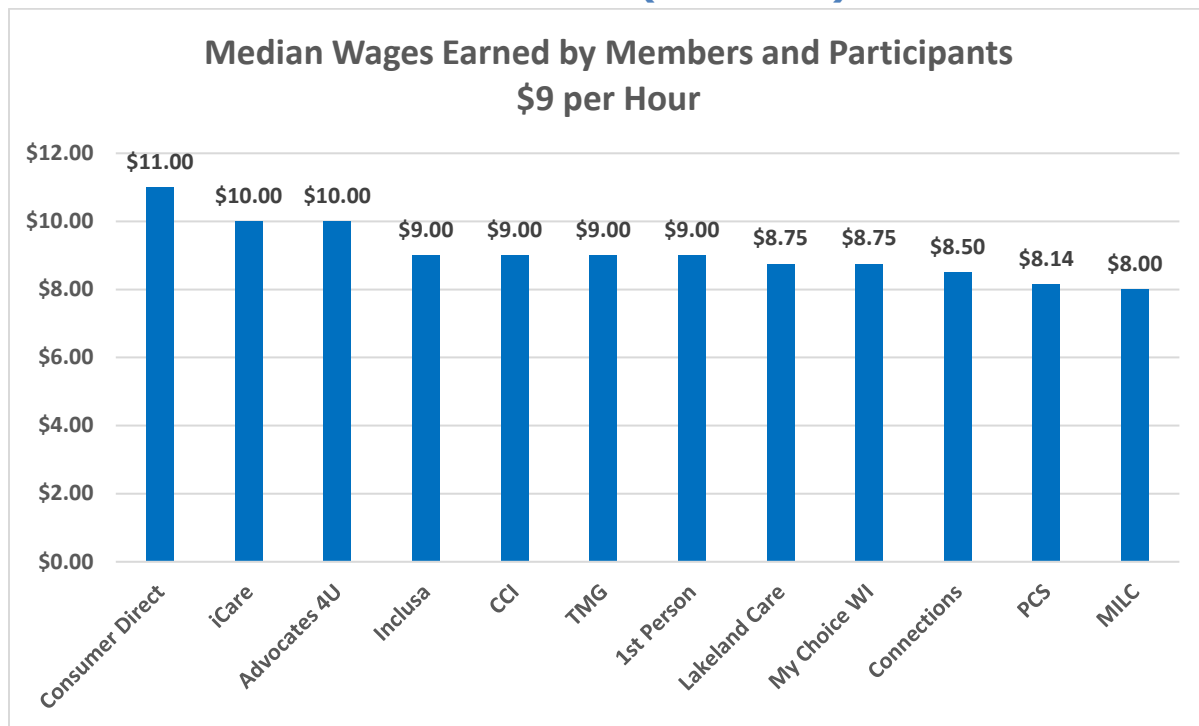

2,191 IRIS Participants in CIE

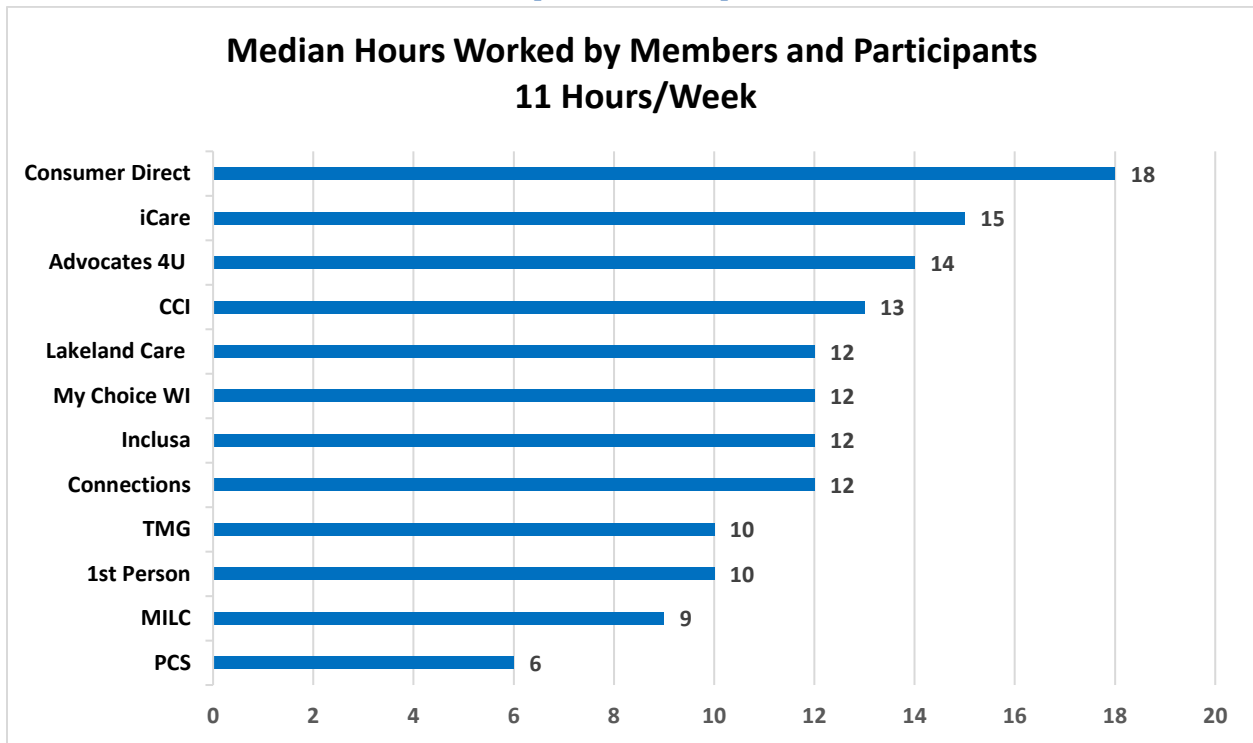

Percentage of Total Working Age Population Members or Participants in CIE by MCO and ICA (SFY 2020)

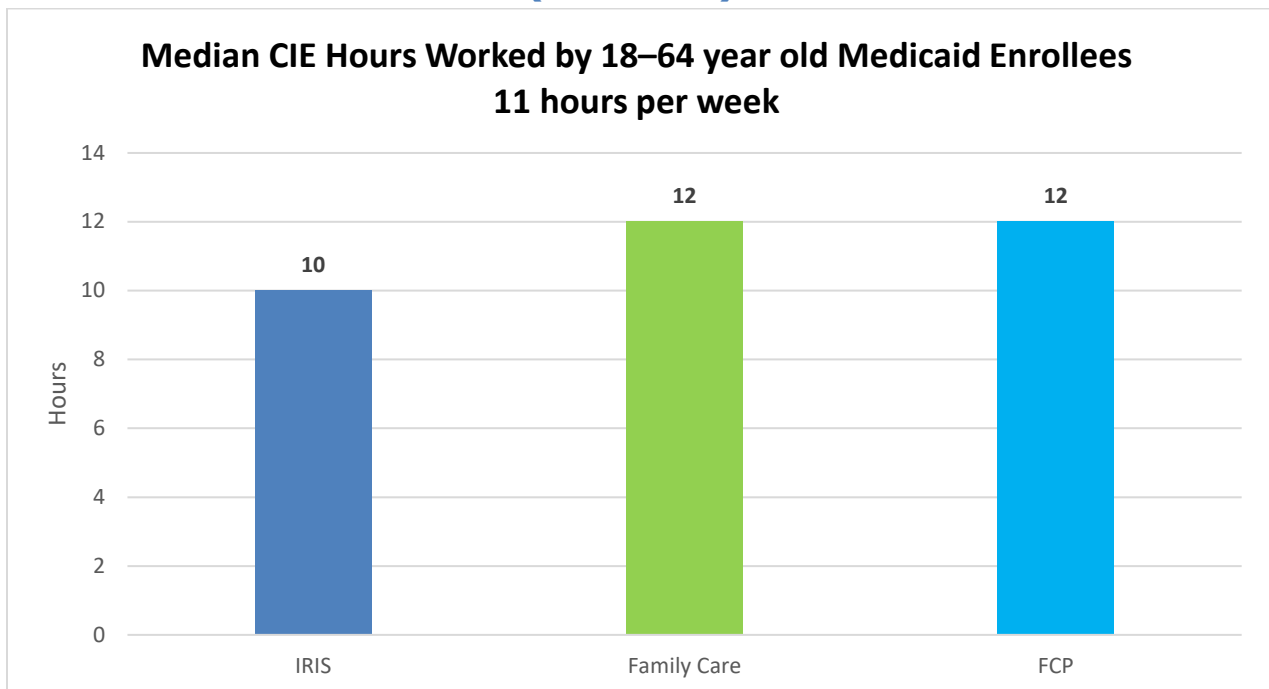

Median Wages Earned per Week by Individuals Working in CIE by MCO and ICA (SFY 2020)

Median Hours Worked per Week by IRIS Participants and Family Care and Family Care Partnership Members in CIE by MCO and ICA (SFY 2020)

Median CIE Hours Worked per Week by IRIS Participants and Family Care and Family Care Partnership (FCP) Members in CIE (SFY 2020)

Median CIE Wages Earned by IRIS Participants and Family Care and Family Care Partnership Members in CIE (SFY 2020)

Percentage of Total Working Age Population in CIE by Program (IRIS, Family Care, and Family Care Partnership–SFY 2020)

IRIS

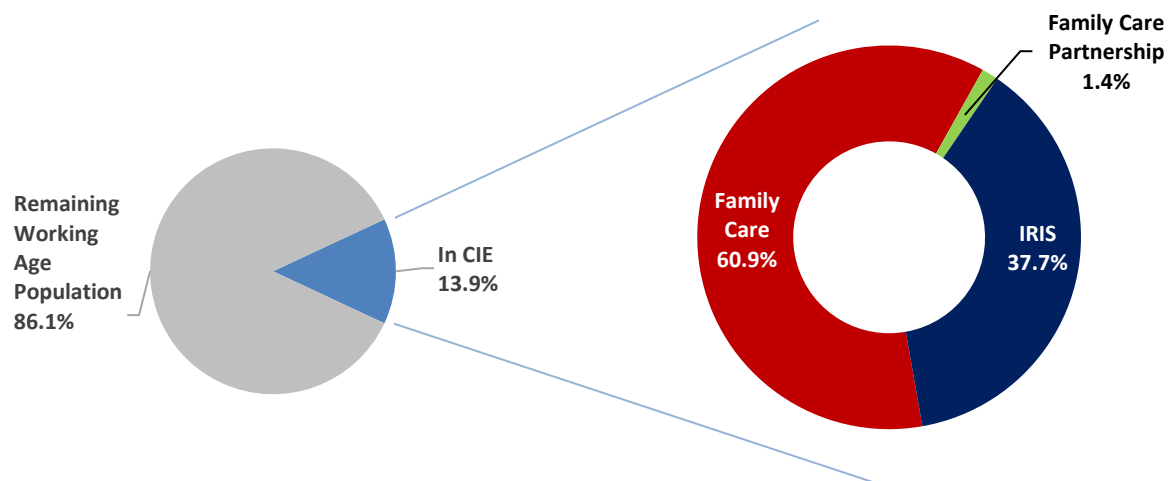

Family Care

Family Care Partnership

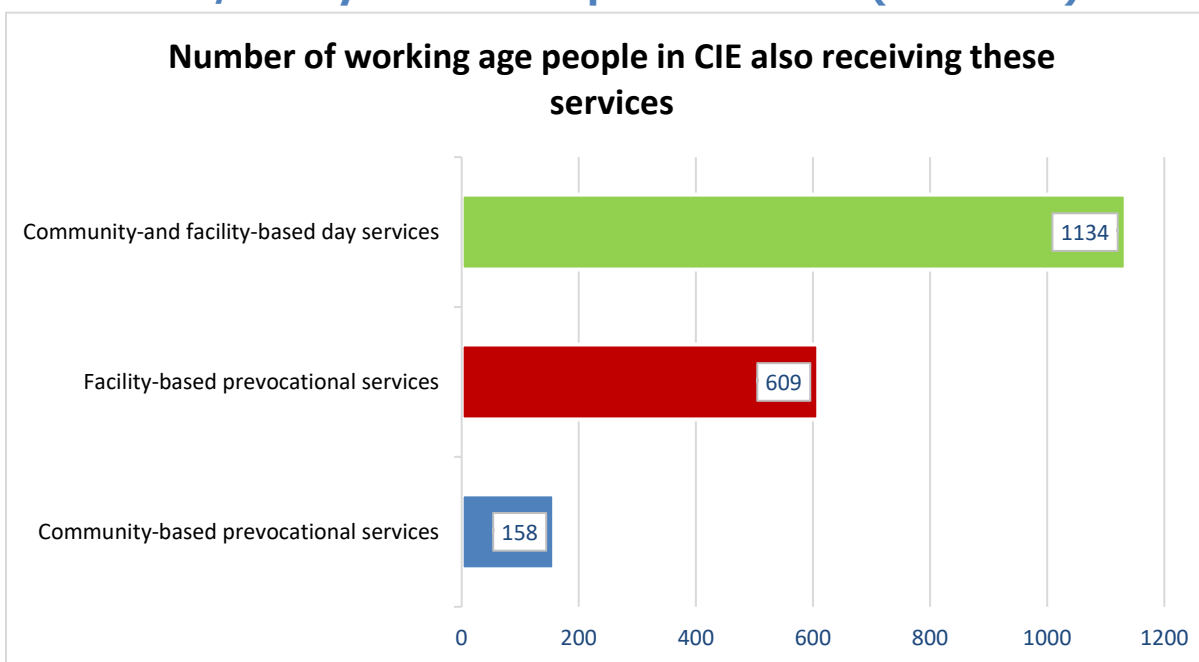

Percentage of Total Working Age Population (18–64) in CIE enrolled in Family Care, Family Care Partnership, and IRIS (SFY 2020)

Percentage of IRIS Participants and Family Care and Family Care Partnership Members With and Without Supported Employment Services Working in CIE (SFY 2020)

Number of Working Age Population in CIE Receiving Community and/or Facility-based Prevocational and/or Day Services Duplicated Count (SFY 2020)

CIE Enrollment by Geographic Service Region (GSR) SFY 2020

Note: GSR boundaries as of 2024 are used for all years
