

# Reading a Disinfectant Label

Disinfectant labels are printed on or attached to the product container. Labels provide valuable information on how to use the product properly. It is important to read and understand the instructions for use before using a disinfectant product.

## Proper preparation

Ensure product is prepared according to the instructions. Following instructions meticulously will assure that the disinfection occurs as expected.

## Targeted pathogens

Ensure that the pathogens being targeted is included in the product's kill claim.

## Targeted surfaces

Ensure the disinfectant is only used on approved surfaces according to the disinfectant's instructions for use.

## Contact time

Also referred to as "dwell time," "kill time," or "wet time." Contact time provides the amount of time a surface needs to remain wet with a disinfectant product to achieve adequate disinfection.

### ACTIVE INGREDIENTS

Bug Buster.....60%

### OTHER INGREDIENTS

Scrub-a-Bug.....40%

### EPA REG NO.

123-456-789

### DIRECTIONS FOR USE

Concentrated product should not be used. **Dilute properly before using.**

Dilute four (4) ounces of concentrated product per one (1) gallon of water. Once prepared, solution expires after 48 hours.

Effectively kills health care pathogens such as carbapenem resistant Enterobacterales and Mycobacterium tuberculosis in two (2) minutes.

### To disinfect hard, nonporous surfaces:

- Remove gross soil.
- Apply disinfectant solution.
- Allow surface to remain wet for at least two minutes.

### PRECAUTION STATEMENT

Wear eye protection and gloves when handling concentrated product. Wear gloves when handling diluted product.

**Causes moderate eye and skin irritation.**  
Avoid contact with eyes, skin, and clothing.

### STORAGE AND DISPOSAL

Store this at room temperature, away from direct sunlight and heat. Product can be poured down the drain for disposal.

Expiration: 12/29/2026

## Environmental Protection Agency (EPA) registration

Ensure the disinfectant product being used is registered with the EPA.

## Proper handling

Ensure proper personal protective equipment is worn while handling the product.
