Presumptive Eligibility (Temporary Medicaid) Only Available to Women Enrolled in the Well Woman Program

Presumptive eligibility is “temporary” Medicaid you can get only if you are first enrolled in the Well Woman Program. Temporary Eligibility allows you to get health care, including breast and cervical cancer treatment while you apply for continuous Well Woman Medicaid through the Well Woman Processing Unit.

Temporary Medicaid can begin on the date you were diagnosed by a “certified Medicaid provider” if a presumptive eligibility application is submitted to Medicaid by the provider. Temporary Medicaid begins on the date you are diagnosed and will end at the end of the month following the month of diagnosis.

If you wish to continue to get Medicaid benefits, your Well Woman Program Local Coordinator will help you send an application to your Well Woman Processing Unit Coordinator or your health care provider should submit the Well Woman Medicaid determination form to the Well Woman Processing Unit by mail or fax.
