Identification Cards for the Medicaid SSI HMO Program
Each person who is enrolled in Medicaid Supplemental Security Income (SSI) is issued a ForwardHealth card. Show your ForwardHealth card each time you receive health care services.

What is the Medicaid SSI HMO Program?
The Medicaid SSI Health Maintenance Organization (HMO) Program is a group of health plans that provide health care services for those who receive Medicaid SSI or SSI-related Medicaid because of a disability determined by the Disability Determination Bureau.

Enrolling in an HMO
The Wisconsin Medicaid SSI HMO Program is a way to provide Medicaid benefits to the SSI population. You may have the opportunity to be involved in a comprehensive health care system. This is a program that gives you access to a wide range of services that address both your medical and community service needs. The health plan considers you a valuable partner in making choices about your health and community needs.
Following are the requirements to be able to receive SSI HMO services:
- Live in one of the SSI HMO service areas.
- Be 19 years of age or older.
- Receive Medicaid SSI or SSI-related Medicaid because of a disability determined by the Disability Determination Bureau.
- Not live in an institution or nursing home.
- Not be participating in the Home and Community Waivers Program, for example, Community Integration Program (CIP) or Community Options Program (COP).

**Benefits of an SSI HMO**
A primary care provider or primary care clinic of your choice will help you manage your health care needs.

SSI HMO members do not have copayments for covered services, except for pharmacy. SSI HMOs provide access to health care 24 hours a day, seven days a week. Some SSI HMOs provide all your health care in one location.

Additional services available include:
- An assessment of your medical and social service needs.
- A care plan that includes both medical and social services.
- A Health Care Coordinator to help you arrange for your care and services.
- Help in choosing health care providers near your home.
- Help in finding the right health care services.

**Services the Medicaid SSI HMO Covers**
SSI HMOs cover medically necessary Medicaid SSI services. After you have joined an SSI HMO, call the SSI HMO to find out where to go for your health care.

The services your SSI HMO will cover include:
- Doctor visits and hospital care.
- Eye care, including eyeglasses.
- Outpatient and emergency care.
- Prenatal care.
- Medical equipment and supplies.
- Mental health services.
- Hearing services, including hearing aids.
- Family planning services.
- Home health care.
- Personal care services.
- Physical and occupational therapy.
- Substance abuse (alcohol and other drug abuse) services.
- Dental care in certain counties. (Some Medicaid SSI HMOs cover dental care under the SSI HMO – for those who do, you must see a dentist in the SSI HMO network. For the SSI HMOs that do not cover dental care, then dental care will be provided by Medicaid fee-for-service.)

**How do you choose your Medicaid SSI HMO?**

It is important to choose the Medicaid SSI HMO that best meets your health care needs. Ask your health care providers which Medicaid SSI health plans they belong to.

Your health care providers may include:
- Primary care doctor
- Mental health provider
- Specialty doctor
- Personal care provider
- Home health care provider
- Hospital

The Medicaid SSI HMO your health care providers accept could be the one for you! Your health care providers may not all belong to one Medicaid SSI HMO. You then need to decide which provider is most important to you.

Other things to consider are:
- What hours are the doctors, clinics, and other providers open that belong to that Medicaid SSI HMO?
- Do you have other health insurance? You will be expected to see health care providers who accept your other insurance as well as your Medicaid SSI health plan.
