Introduction

This report presents key information about marriages and divorces that occurred in Wisconsin in 2000. It also contains information from selected previous years, as well as information on the number and rate of marriages and divorces, both in Wisconsin and nationally. The sources of data for Wisconsin are marriage and divorce certificates on file with the Bureau of Health Information, Division of Health Care Financing, Department of Health and Family Services.

The collection of marriage and divorce data is mandated by Chapter 69 of the Wisconsin Statutes. Chapter 69 authorizes the Department of Health and Family Services to supervise and direct the collection of these data. This statute also stipulates how local registrars are to collect and file certificates of marriage. Samples of the marriage and divorce certificates are included in the Technical Notes.

The Department of Health and Family Services produced this publication. Staff of the Vital Records Registration and Statistics Unit, Bureau of Health Information, collected and compiled the marriage and divorce records. Joyce Knapton drafted the summaries in this report and produced the computer programs to generate the tables. Patricia Nametz edited the report. The report was prepared under the supervision of Janet Heimbruch, State Registrar, Vital Records Section, and Lynnette Traas, Supervisor, Registration and Statistics Unit. Sandra Breitborde, Director, Bureau of Health Information, provided overall direction.

The Bureau of Health Information would like to thank the County Clerks for issuing accurate marriage licenses and the local Register of Deeds offices for their accurate recording of all marriage records.

This report is also available on the Department of Health and Family Services website, at <https://www.dhs.wisconsin.gov/stats/marriages.htm>.

Comments, suggestions, and requests for additional marriage or divorce data may be addressed to:

Key Findings

- A total of 36,100 marriages occurred in Wisconsin in 2000, representing a slight increase from the 35,754 marriages that occurred in 1999. These counts reflect all marriages that occurred in Wisconsin (of both residents and non-residents of the state).
- Wisconsin's marriage rate in 2000 was 6.7 per 1,000 total population, similar to the 1999 rate of 6.8 but still representing a gradual decline since 1980 when the rate was 8.7.
- The marriage rate in Wisconsin has been consistently lower than the national rate for more than 75 years. In 2000, the United States marriage rate was 8.5.
- The median age for first marriages in 2000 was 24.7 for brides and 26.3 for grooms. In 1960, the median age at first marriage was 20.4 for brides and 22.9 for grooms.
- Since 1960, the average bride in a first marriage has been approximately two years younger than the groom.
- In 2000, the months with the highest number of marriages were June, August and September. September was the most popular month to marry.
- Milwaukee County had the highest number of marriages in 2000 (5,500), followed by Dane County (2,836), Waukesha County (2,372), and Brown County (1,693). These are Wisconsin's four most populous counties.
- A total of 17,388 divorces occurred in Wisconsin in 2000, for a divorce rate of 3.2 per 1,000 total population. This is slightly lower than the 1999 rate (3.3) and is the lowest statewide rate since 1975.
- The divorce rate in Wisconsin has been consistently lower than the national rate for more than 75 years. In 2000, the United States divorce rate was 4.1.
- In 2000, the total number of Wisconsin divorces was 48 percent of the total number of Wisconsin marriages. This was identical to the 1999 percentage.
- The highest number of divorces occurred in Milwaukee County (2,550 divorces and 13 annulments), followed by Dane County (1,375 divorces and 5 annulments) and Waukesha County (1,071 divorces and 1 annulment), reflecting the large populations of these three counties.
- Fifty-five percent of all Wisconsin divorces in 2000 involved families with children under 18 years of age. Among divorces involving families with children, an average of 1.8 children were affected by each divorce.

1999	35,754	6.8	8.6
2000	36,100	6.7	8.5

Source: U.S. marriage rates are from the National Center for Health Statistics, *National Vital Statistics Reports*. Wisconsin numbers and rates are from the Bureau of Health Information, Division of Health Care Financing, Department of Health and Family Services.

* Rates shown are marriages per 1,000 total population.

Notes: The Wisconsin numbers and rates reflect marriages that occurred in Wisconsin. The U.S. marriage rates for 1999 and 2000 are provisional based on marriages that occurred in the 12 months ending in December of both years.

- A total of 36,100 marriages occurred in Wisconsin in 2000, representing a slight increase from the 35,754 marriages that occurred in 1999.
- Wisconsin's marriage rate in 2000 was 6.7 per 1,000 total population, similar to the 1999 rate of 6.8 but still representing a gradual decline since 1980 when the rate was 8.7.
- The marriage rate in Wisconsin has been consistently lower than the national rate for more than 75 years.

2000	24.7	26.3	41.7	44.6

Source: Bureau of Health Information, Division of Health Care Financing, Department of Health and Family Services.

Note: The median age is one way of expressing the average age, and represents the midpoint of all persons in the group (half are older and half are younger than the median age). For example, in 1995 the median age for brides at first marriage was 24.5, meaning that half of all brides being married for the first time in 1995 were younger, and half were older, than 24.5. The numbers in this table reflect all marriages that occurred in Wisconsin in the stated years.

- The median age for first marriages in 2000 was 24.7 for brides and 26.3 for grooms. In 1960, the median age at first marriage was 20.4 for brides and 22.9 for grooms.
- Since 1960, the average bride in a first marriage has been approximately two years younger than the groom.

1999	17,302	3.3	4.1
2000	17,388	3.2	4.1

Source: U.S. divorce rates are from the National Center for Health Statistics, *National Vital Statistics Reports*. Wisconsin numbers and rates are from the Bureau of Health Information, Division of Health Care Financing, Department of Health and Family Services.

* Rates shown are divorces and annulments per 1,000 total population.

Notes: The Wisconsin numbers and rates represent divorces and annulments occurring in Wisconsin. The U.S. divorce rates for 1999 and 2000 are provisional based on divorces that occurred in the 12 months ending in December of both years.

- A total of 17,388 divorces occurred in Wisconsin in 2000, for a divorce rate of 3.2 per 1,000 population. This is slightly lower than the 1999 rate (3.3) and is the lowest statewide rate since 1975.
- Wisconsin's divorce rate has been lower than the national rate for more than 75 years.
- In 2000, the total number of Wisconsin divorces was 48 percent of the total number of Wisconsin marriages. This was identical to the 1999 percentage.

Note: These numbers represent divorces and annulments that occurred in Wisconsin in 2000.

- Fifty-five percent of all Wisconsin divorces in 2000 involved couples with children under 18 years of age. Among divorces involving children, an average of 1.8 children were affected by each divorce.

Technical Notes

Marriage Reporting Requirements

As specified in Chapter 69, Wisconsin Statutes, the following is a brief outline of the sequence of events which take place when a marriage occurs in Wisconsin:

- The filing party (officiant) must register the certificate of marriage with the local Register of Deeds (where the marriage took place) within 3 days after the event.
- The local Register of Deeds must transmit the marriage certificate to the State Registrar within 10 working days after its receipt.

A sample marriage certificate form can be found on page 16.

Divorce Reporting Requirements

As specified in Chapter 69, Wisconsin Statutes, the following is a brief outline of the sequence of events which take place when a divorce occurs in Wisconsin:

- At the end of every biweekly period the filing party (clerk of any court) must send to the State Registrar a report of every divorce or annulment of marriage granted during that period. (This is the only legal document pertaining to vital records that is not filed by the local Register of Deeds.)

A sample divorce certificate form can be found on page 17.
