## Wisconsin Local Health Department Survey, 2008

September 2010

Population Health Information Section Division of Public Health Wisconsin Department of Health Services

## Foreword

The Wisconsin Department of Health Services (DHS) is mandated by section 251.05, Wisconsin Statutes, to collect information annually from local health departments (LHDs) for use in a local public health data system. The 2008 Local Health Department Survey was conducted within DHS by the Office of Policy and Practice Alignment, Wisconsin Division of Public Health (DPH).

The Office of Policy and Practice Alignment distributed the 2008 survey to local health officers online via the Health Alert Network (HAN), which allowed the LHDs to submit their responses electronically. The survey was available on the HAN beginning January 26, 2010 and the final survey was completed on March 22, 2010. DPH Regional Office staff reviewed survey responses for errors and inconsistencies.

The information presented in this report is based on local health department responses to the 2008 annual survey. Included are tables showing financial data (revenues, expenses, local tax levies and per capita expenditures) and LHD staffing for 2008. All 92 LHDs in Wisconsin in 2008 responded to both the financial survey and the staffing survey. At the end of the report are copies of the survey instruments and the definitions provided to LHDs as a reference for their responses.

As noted above, all data shown are self-reported by the LHDs, with data verification provided by DPH Regional Office staff. Jennifer Ullsvik of the DPH Southern Regional Office compiled the data from the online survey. Mary Young, Director of the DPH Southern Regional Office, reviewed the report draft.

This report was compiled by Yiwu Zhang in the Population Health Information Section (PHIS) of the Office of Health Informatics. Pat Nametz of the PHIS edited the report. Chris Hill, Chief, PHIS, supervised the report preparation. Patricia Guhleman, Interim Director, Office of Policy and Practice Alignment, DPH, provided overall direction.

This report and other health statistics are available online at <a href="http://dhs.wisconsin.gov/stats">http://dhs.wisconsin.gov/stats</a>. Comments, suggestions and requests for further information may be addressed to individual Regional Office Directors (<a href="http://dhs.wisconsin.gov/R\_counties">http://dhs.wisconsin.gov/R\_counties</a>) or to:

<sup>\*</sup> No county health department.

<sup>\*\*</sup> Tax levy is the difference between revenues and expenses.

<sup>\*\*\*</sup> Agency is a fiscal agent for a multi-jurisdictional consortium for public health programs or services other than public health preparedness.

County health departments appear in capital letters. Municipal health departments are indented.

The population count reflects the population in each department's jurisdiction. Populations of county LHDs in counties with municipal health departments do not include the populations of those municipalities.

Populations shown are estimates provided by the Wisconsin Department of Administration for January 1, 2008.

<sup>\*</sup> No county health department.

<sup>\*\*</sup> Tax levy is the difference between revenues and expenses.

<sup>\*\*\*</sup> Agency is a fiscal agent for a multi-jurisdictional consortium for public health programs or services other than public health preparedness.

County health departments appear in capital letters. Municipal health departments are indented.

The population count reflects the population in each department's jurisdiction. Populations of county LHDs in counties with municipal health departments do not include the populations of those municipalities.

Populations shown are estimates provided by the Wisconsin Department of Administration for January 1, 2008.

<sup>\*</sup> No county health department.

County health departments appear in capital letters. Municipal health departments are indented.

The population count reflects the population in each department's jurisdiction. Populations of county LHDs in counties with municipal health departments do not include the populations of those municipalities.

Definitions Local Health Department Staffing Survey	
Health Department Staff and Contracted Personnel	Who is Health Department Staff?  A general rule is that anyone who performs services for you is your employee if you can control what will be done and how it will be done.  Who is an Independent Contractor?  A general rule is that you, the payer, have the right to control or direct only the result of the work done by an independent contractor, and not the means and methods of accomplishing the result.
FTEs and Staff	The number of FTEs is the number of full-time equivalents that your agency allocated to that position. This number can be a fraction if you have part-time people. The number of staff is the number of <b>actual people</b> your agency had in that position. This will always be a whole number. Count staff if there was someone in that position at any time during the year. For example, if you have 1 full-time person and 1 half-time person, you have 1.5 FTEs and 2 staff. If you have 3 full-time people, you have 3 FTEs and 3 staff. The number of FTEs will be less than or equal to the number of staff. The only exception would be if you had unfilled allocated FTEs for the entire year: the number of FTEs could then be greater than staff.
Administrator	This includes the Director; Health and Human Services Director; Public Health Deputy Director or Supervisor; Health Officer, as defined by Wisconsin Statutes, Chapter 251 and HFS 139; and other personnel who direct, supervise, plan, organize, control, and/or coordinate public health services, education, and policy in public health agencies. <a href="http://www.legis.state.wi.us/statutes/Stat0251.pdf">http://www.legis.state.wi.us/statutes/Stat0251.pdf</a> <a href="http://www.legis.state.wi.us/rsb/code/dhs/dhs139.pdf">http://www.legis.state.wi.us/rsb/code/dhs/dhs139.pdf</a>
Support Staff	This classification represents workers who are generally considered support staff, provide assistance in general areas of agency operations and management. They are not specific to public health.
Computer Specialist	Computer Specialist Manages specialized technical aspects of computer operation, applications, operating systems and hardware.
Registered Sanitarian	As defined by Wisconsin Administrative Code Chapter HFS 160. <a href="http://www.legis.state.wi.us/rsb/code/dhs/dhs160.pdf">http://www.legis.state.wi.us/rsb/code/dhs/dhs160.pdf</a>
Other Environmental Health Professional	Applies biological, chemical and public health principles to control, eliminate, improve, and/or prevent environmental health hazards, in areas including food processing and service, sanitation, and water, air and soil contamination.

Epidemiologist	Investigates and describes the determinants and distribution of disease, disability, and other health outcomes and develops the means for their prevention and control; investigates, describes, and analyzes the efficacy
	of programs and interventions.
Public Health Nurse	As defined by Wisconsin Administrative Code Chapter DHS 101.03(149). Applies nursing and public health principles to assess, develop, implement and evaluate care plans and health programs related to health promotion, disease prevention, and health protection services for individuals, families and the community.
	(149) "Public health nurse" means a registered nurse who has completed a baccalaureate degree program approved by the national league for nursing for public health nursing preparation or post-registered nurse study which includes content approved by the national league for nursing for public health nursing preparation.
Registered Nurse	Registered nurse working in a LHD who does not meet the requirements of DHS 139.
	http://www.legis.state.wi.us/rsb/code/dhs/dhs139.pdf
Licensed Practical Nurse	As defined by Wisconsin Statutes, Chapter 441 <a href="http://www.legis.state.wi.us/statutes/Stat0441.pdf">http://www.legis.state.wi.us/statutes/Stat0441.pdf</a>
Nurse Practitioner	As defined by Wisconsin Statutes, Chapter 441.
Certified Dietitian	http://www.legis.state.wi.us/statutes/Stat0441.pdf As defined by Wisconsin Statutes, Chapter 448.
Certified Dictitian	http://www.legis.state.wi.us/statutes/Stat0448.pdf
Public Health Nutritionist	Public Health Nutritionist: A person who is a certified dietitian (Stat.
	448.70(1m)) and who meets qualification requirements specified by the
	department rule s.DHS139 to conduct a public health nutrition program.
	A public health nutrition program means the development,
	implementation and evaluation of population-based strategies by public health nutritionists to assure effective interventions related to nutrition and physical activity behaviors, the nutrition environment, and food and
	nutrition policy.
Dietitic Technician	Works under the close supervision of a certified dietitian or PH
	nutritionist to provide routine technical support services in public health
	agency clinics, including nutrition education, screening, record keeping
	and outreach. As defined by Wisconsin Statutes, Chapter 448.
	http://www.legis.state.wi.us/statutes/Stat0448.pdf
Physician	Identifies persons or groups at risk of illness or disability and develops,
<b>3</b> * * * *	implements and evaluates programs or interventions designed to prevent
	treat or ameliorate such risks. May provide direct medical services within
	the context of such programs.
	As defined by Wissensis Cutottee Chapter 440 01/5)
	As defined by Wisconsin Statutes, Chapter 448.01(5) <a href="http://www.legis.state.wi.us/statutes/Stat0448.pdf">http://www.legis.state.wi.us/statutes/Stat0448.pdf</a>
Dentist	As defined by Wisconsin Statutes, Chapter 447
	http://www.legis.state.wi.us/statutes/Stat0447.pdf
Dental Hygienist	As defined by Wisconsin Statutes, Chapter 447
	http://www.legis.state.wi.us/statutes/Stat0447.pdf
Public Health Educator	Designs, implements, evaluates, and provides consultation on educational
	programs and strategies to support and modify health-related behaviors of
	individuals, families, organizations and communities and to promote the

	effective use of health programs and services.
Laboratory Professional	Plans, designs and implements laboratory procedures to identify and quantify agents in the environment which may be hazardous to human health, biological agents believed to be involved in the etiology of diseases in animals or humans or other physical, chemical or biologic hazards.
Laboratory Technician	Plans, performs and evaluates laboratory analyses and procedures and is not elsewhere classified.
Bilingual Health Aide/Interpreter/Translator	A public health worker from an indigenous community who is trained on- the-job to work under the close supervision of public health professionals to provide public health services, including interpretation for clients who do not speak English.
Other Public Health Professional	Any professional staff not included above: please list and define in the appropriate text box with a number and title of each position.
Other Public Health Paraprofessional	Any paraprofessional staff not included above: please list and define in the appropriate text box with a number and title of each position.
