

90th Day Letter-In Process

Date:

Dear Parent:

According to our records, your child is in the process of receiving all of the vaccinations required to attend school in Wisconsin. We encourage you to continue to make vaccination appointments and take your child to these appointments in order to ensure that your child becomes up-to-date with vaccinations for his/her age.

Vaccinations are one of the most important methods of protecting our children from diseases and the complications that can occur from these diseases. Vaccinations are especially important for school-aged children because children in school are regularly in close contact with others who may or may not be protected from these diseases.

In order to remain in compliance with the Wisconsin Student Immunization Law, please contact your child's health care provider to receive needed vaccinations. Encourage your child's health care provider to use the Wisconsin Immunization Registry and any vaccination records you have for your child to determine which vaccines your child needs to receive. If your child does not have a health care provider, please contact your local health department to determine if your child is eligible to receive vaccinations at the health department. Local health department contact information can be found on this website: <https://www.dhs.wisconsin.gov/lh-depts/counties.htm>

Please be aware that in the fall of the next school year, your child's vaccination records will be reassessed to ensure that he/she is sufficiently vaccinated for his/her grade level or has a waiver on file. If sufficient documentation is not supplied for your child, he/she might be required to stay home from school.

For additional information on vaccines and immunizations, please visit this website: <http://www.cdc.gov/vaccines/vac-gen/default.htm>

Thank you for helping us keep all Wisconsin school children safe from diseases that can be prevented by vaccination.
