Reimbursable activities include: Salary, fringe, indirect, travel, meeting costs, equipment and supplies, education & training, and communications. The focus of these contracts is to support EHDI Outreach & Coordination efforts, which works towards reducing the number of infants not screened at birth or who "do not pass" the newborn hearing screening. The goals of the EHDI Outreach & Coordination efforts are to extend newborn hearing screening services to babies born at home and to reduce loss to follow-up within the homebirth community within one month of age, as well as to increase the percentage of follow-up testing prior to three months of age.
