PROFILE DESCRIPTION: This project supports work as part of the CDC funded Improving the Innovative State and Local Public Health Strategies to Prevent and Manage Diabetes and Heart Disease and Stroke grant. Specifically, activities related to the implementation and evaluation of interventions for cardiovascular disease prevention and management. These strategies include: use of electronic health records and health information technology to identify patients with undiagnosed hypertension and provider-level quality measurement, team-based care, medication adherence, bi-directional referral systems, mobile health technology, cardiac rehab and the Pathways Community HUB approach to care coordination for people with cardiovascular disease.
