

Continuing Education Credits for Radon Professionals

Day 1 of the [Wisconsin Radon Conference](#) will offer two 4-hr continuing education (CE) courses taught by Kansas State University. You can [register](#) for one or both courses, at \$20 each. Stay for the main conference day on November 13 for presentations and networking! Conference attendance also counts towards CE credit.

Nov. 12

AM

**8:00 a.m.
- 12:00 p.m.**

Tips for Radon Measurement in Multi-Family, Schools and Large Buildings | 4hrs | KSU-602

This is a 4-hour continuing education course for radon measurement professionals covering standards and processes associated with measurement work in multi-family, schools, and large buildings. This course covers the ANSI/AARST MA-MFLB 2023 standard and focuses on the logistics and details of doing radon measurement work in multi-family, schools, and large building settings through case studies and discussion.

Nov. 12

PM

**1:00 p.m.
- 5:00 p.m.**

Mitigation Design, Diagnostics and Materials Review Video Series | 4hrs | KSU-423

This course will focus on mitigation design, diagnostics and materials through a video series reviewing the Rutgers Superslab with its designer Bill Broadhead and radon training expert Bruce Snead.

[Register](#) for the conference and CE course add-ons!
