Federal Tag Cited	Regulation Language	Number of Cites
418.56(b) Plan of Care (participants)	All hospice care and services furnished to patients and their families must follow an individualized written plan of care established by the hospice interdisciplinary group in collaboration with the attending physician (if any), the patient or representative, and the primary caregiver in accordance with the patient's needs if any of them so desire.	1
418.56(c) Content of Plan of Care	The hospice must develop an individualized written plan of care for each patient. The plan of care must reflect patient and family goals and interventions based on the problems identified in the initial, comprehensive, and updated comprehensive assessments. The plan of care must include all services necessary for the palliation and management of the terminal illness and related conditions, including the following:	1
418.60(a) Prevention	The hospice must follow accepted standards of practice to prevent the transmission of infections and communicable diseases, including the use of standard precautions.	1
418.112(d) Hospice Plan of Care	In accordance with §418.56, a written hospice plan of care must be established and maintained in consultation with SNF/NF or ICF/MR representatives. All hospice care provided must be in accordance with this hospice plan of care.	1

HOSPICE SURVEY STATISTICS
January - March 2016

	Department of Health Services, State of Wisconsin	
State Tags Cited	Code Language	Number of Cites
131.21(1) Plan of Care	GENERAL REQUIREMENTS. A written plan of care shall be established and maintained for each patient admitted to the hospice program and the patient's family. The hospice plan of care is a document that describes both the palliative and supportive care to be provided by the hospice to the patient and the patient's family, as well as the manner by which the hospice will provide that care. The care provided to the patient and the patient's family shall be in accordance with the plan of care.	1
131.21(3)(b) Plan of Care	PLAN OF CARE. Content of the plan of care. The hospice shall develop an individualized written plan of care for each patient. The plan of care shall reflect patient and family goals and interventions based on the problems identified in the initial, comprehensive, and updated comprehensive assessments. The plan of care shall include all services necessary for the palliation and management of the terminal illness and related conditions.	1
131.23(2) Infection Control	PREVENTION. The hospice shall follow accepted standards of practice to prevent the transmission of infections and communicable diseases, including the use of standard precautions.	1
