Mental Health and Substance Abuse Treatment Providers

FYI / Training Needs Assessment Survey related to care & treatment for children

We are seeking your input as a provider of children’s services to support the hard work you are doing. The purpose of this survey is to help identify training and support needs for those who provide care, treatment, and/or education for children who have social, emotional, and behavioral challenges.

Please follow this link to complete a short survey (fewer than 10 questions) regarding your agency’s needs by the end of January, 2016: <https://www.surveymonkey.com/r/PYVFRQZ>

Responses will be used by the Trauma-Free Care Workgroup to build trainings and technical assistance for Wisconsin service providers. This workgroup’s primary focus is to support the workforce by reducing seclusion and restraint methods used with children and creating trauma-free environments.

Attached is a document with information about other Wisconsin trauma-informed care efforts. Thank you for your input and participation in developing this plan.

*The Trauma-Free Care Workgroup ~
Department of Children and Families (Danielle Bray, Emily Tofte)
Department of Health Services (Cindy Lindgren, Joannette Robertson, Rebecca Wigg-Ninham)
Department of Public Instruction (John Bemis)
Office of Children’s Mental Health (Joann Stephens)
Wisconsin Association of Families and Children (Linda Hall)
Wisconsin Family Ties (Joanne Juhnke)*
