# Collaboration, Data & Technology Nexus

Robert Wible, CEO Robert Wible & Associates
Health Care In the Built Environment
October 27, 2016, Oshkosh, WI

The Importance of being on the same page

- Owners
- Designers
- EPCs
- Product Suppliers
- Regulators

- Facilitated by changes in technology & the economic necessities of the Post Recession Economy

Changes in Technology & Post Recession Period

- Speed, Accuracy, 24/7
- From paper to digits
- Baby Boomers retire

It's about....

- People
- Processes
- Technology
- Data

- To overcome:
  * Fragmented nature of construction industry
  * For most technology the 80/20 rule
 * Integrate data into readily accessible /usable packages
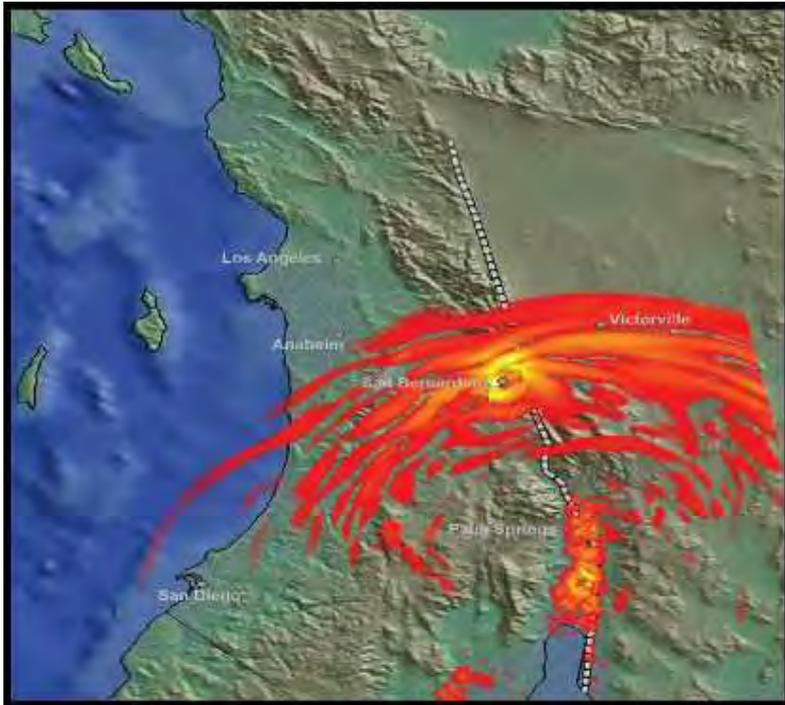

Examples of success stories

- Arlington, VA & Montgomery County, MD
- Mecklenburg County, NC
- Osceola County, FL
- Bend, OR
- Fairfax County, VA

Success Stories Have These Items In Common

- 1 – Collaboration – Construction & Govt Officials
- 2 – Companies & Jurisdiction conduct Self-Assessments
- 3 – Study, gather examples, visit others who that have successfully put in place
- 4 – Start with streamline regs and processes Start Small and Grow – Expanded to more complex issues
- 5 – Stakeholders involved from Start to Finish

Regulatory Streamlining Disaster Preparedness, Response, Recovery

Preparedness, Response, and Recovery from Disasters

Health Care Industry Poised to Lead:

- Build right first
- Maintain against codes, standards, best practices
- Drill
- Learn
- Streamline to Recover
