FINAL REPORT

The WI Clinical Resource Center website is designed to provide key information about clinical care. The website is not intended as an exhaustive listing of all resources; the key content identified has been selected by a diverse group of professionals working in long-term care. To facilitate ease of use, each care area module is organized using a framework that provides tools, guidelines, related regulations and additional resources for learning. The following care area modules are available on the website at: <https://crc.chsra.wisc.edu/>

- Challenging Behaviors
- Dehydration & Fluid Maintenance
- Dementia & Distressed Behaviors
- Depression in the Elderly
- Diabetes Management
- Falls & Fall Risk
- Infection
- Nutrition
- Pain Management
- Person-Centered Care
- Pressure Ulcer Prevention & Treatment
- Restraints
- Transitions in Care
- Urinary Incontinence

Training Modules are available on the website in the following areas.

- Review of the Care Process: Getting to the Root of the Matter
- Identifying and Responding to the Changes in Resident Condition (ICRC): The Impact of Effective Communication between the Licensed Nurse and Medical Provider
- Resident-Directed Care Planning
- Building Relationships Within a Clinical/Cultural Environment
- Infection Prevention and Control Within a Clinical/Cultural Environment
- Use of Antipsychotic Drugs
