

II – Nutrition Services

(Please indicate) **State Agency: Wisconsin** for **FY 2025**

Nutrition services include the full range of activities performed by a variety of staff to operate a WIC Program such as, participant screening and assessment, nutrition education and counseling, breastfeeding promotion and support and health promotion, food package prescriptions, and health care referrals. WIC State agencies should refer to the WIC Nutrition Service Standards, available WIC Works Resource System at [Home | WIC Works Resource System \(usda.gov\)](https://www.usda.gov/wic-works) for recommended criteria and best practices to incorporate activities that are consistent with providing quality nutrition services and revitalizing quality nutrition services (RQNS).

During disasters, emergencies, public health emergencies, or a supply chain disruption, the State agency may request to implement existing and allowable regulatory flexibilities or waivers to support the continuation of Program benefits and services. Waivers granted under Access to Baby Formula Act of 2022 (codified at 7 CFR 246.4a(30)) or temporary provision(s) authorized by Congress are not permanent amendments to the State Plan and should not be reflected in answers below. Instead, waiver flexibilities impacting Program benefits and services should be recorded in Appendix C. However, State agencies should consider any historical amendments as the result of waivers granted under prior waiver authority to develop policies and procedures for current and future disasters.

In April 2024, the final Food Package Rule was issued. State agencies will be required to implement the provisions outlined in the rule by the prescribed due dates. To assist State agencies with implementing the new provisions, [WIC Policy Memorandum #2024-5: Implementing the Provisions of the Special Supplemental Nutrition Program for Women, Infants, and Children \(WIC\): Revisions in the WIC Food Packages Final Rule](#) was issued on April 23, 2024. As State agencies plan to meet the new provisions, they should also consider any potential impacts to their MIS, where applicable.

[Nutrition Education-7 CFR 246.4\(a\)\(9\); 246.11\(a\)\(1-3\) \(c\)\(1,3-7\)](#): describe the nutrition education goals and action plan and the provisions for providing nutrition education contacts and materials to all participants including the special nutrition education needs of migrant farmworkers and their families, Native Americans, and homeless persons. Also describe methods to be used to provide drug and other harmful substance abuse prevention information. Establish standards for breastfeeding promotion and support including the development and/or maintenance of a peer counselor program consistent with the WIC Breastfeeding Model Components for Peer Counseling.

B. [Food Package Design-7 CFR 246.10](#): describe the procedures for determining which foods should be authorized and how the food package should be nutritionally tailored and by whom and plans for substitutions or eliminations to WIC food package. In addition to regulations at 246.10, State
